

TRANSIT STUDY

Values Workshops

Common Themes

- I like a growing economy, but if traffic grows with it, will gridlock choke the economy?

- Let's grow our small towns and save some open space rather than sprawling everywhere.

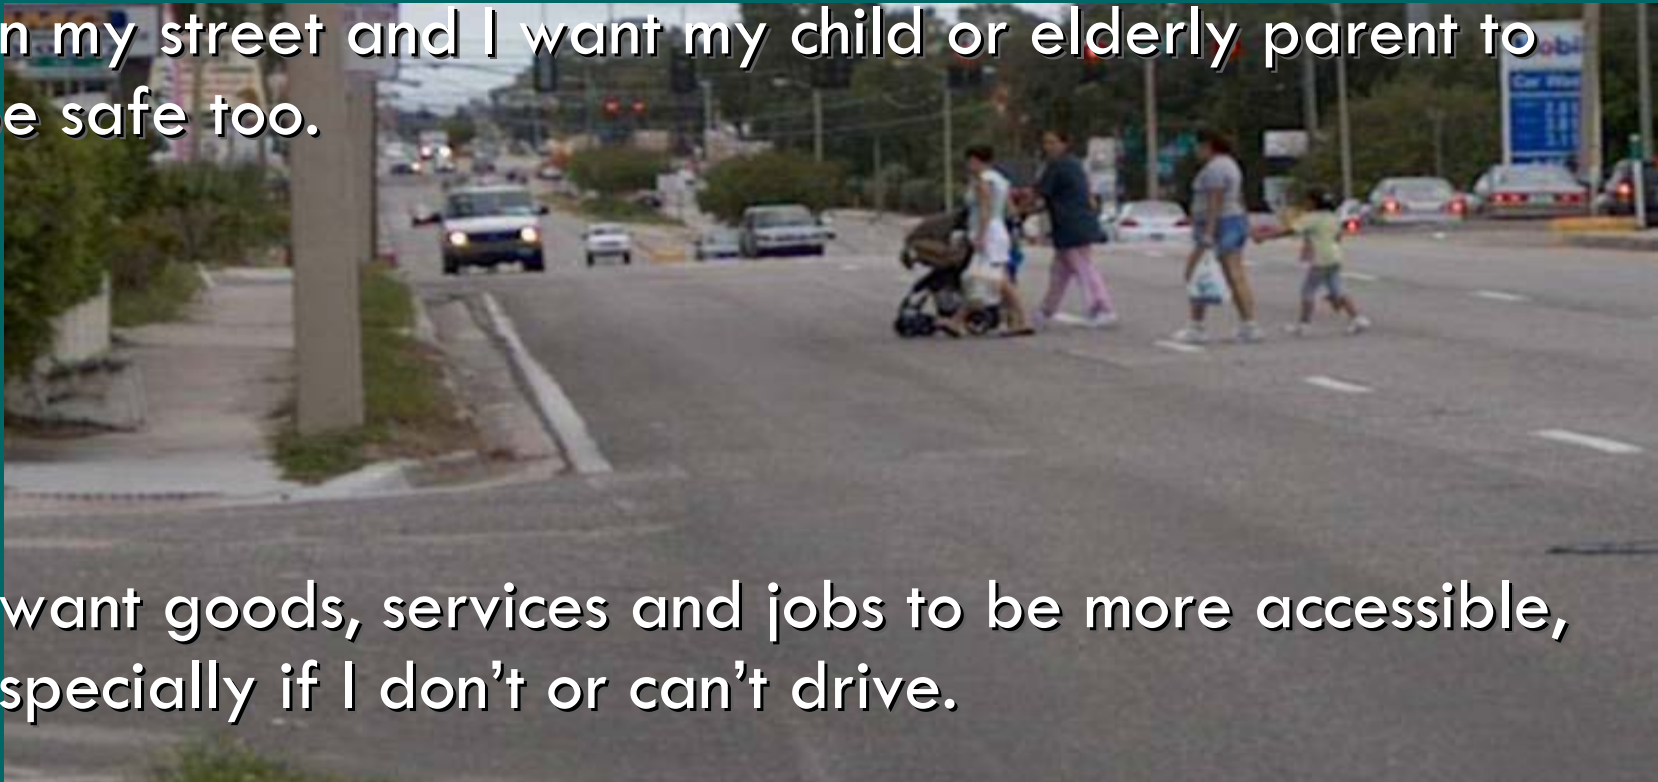

Common Themes

- I want more quality time spent with my family, friends, and less time in traffic.
- Give me more reliable travel times.

Common Themes

- Traffic cuts through my community. I want to feel safe on my street and I want my child or elderly parent to be safe too.

- I want goods, services and jobs to be more accessible, especially if I don't or can't drive.
