

Solid Waste Section Crosswalk
Proposed in Order
Version 2.0

SW Proposed Language Number	Solid Waste Section Proposed Language	Status	Adopted Number	Adopted Language
1.0.0	Lead in waste reduction, reuse and recycling in a cost-efficient manner to provide for sustainable solid waste management.		1.0.0	Hillsborough County shall provide for an environmentally sound and efficient solid waste management system.
1.1.0	Adopt an integrated hierarchy of solid waste management using source reduction as the primary approach, followed in order by reuse, recycling/composting and energy recovery. Landfill disposal shall be considered the last resort.	NEW	N/A	N/A
1.1.1	Regularly review and update codes and ordinances to implement the integrated hierarchy of waste management	NEW	N/A	N/A
1.1.2	Support state and federal efforts to establish producer responsibility systems in reducing waste generation at the source and end of life management of materials; explore methods to enhance local producer responsibility	NEW	N/A	N/A
1.1.3	Expand partnerships with the public, private and nonprofit sector to enhance community reuse opportunities and increase organics recovery and composting infrastructure	NEW	N/A	N/A
1.1.4	Pursuant to state statutes, require new commercial and multi-family developments to provide adequate space and receptacles for recycling infrastructure	NEW	N/A	N/A
1.1.5	Explore a phased approach to universal recycling to expand recycling to all commercial and multi-family properties	NEW	N/A	N/A
1.1.6	Explore and support approaches to increase waste diversion from construction-related activities	NEW	N/A	N/A
1.1.7	Continue methods to recover energy from waste that is not recyclable	NEW	N/A	N/A

Version 2.0

1.1.8	Ensure that hurricane and storm debris disposal is factored into future landfill planning	NEW	N/A	N/A
1.1.9	Continue to meet the adopted LOS as outlined in the Capital Improvements Element using the integrated hierarchy as a primary strategy		1.1.0	The County shall maintain level of service capacity at all facilities consistent with the Capital Improvements Element.
			1.3.4	The level of service to be maintained by all facilities shall be as stated in the Capital Improvements Element.
1.2.0	Leverage waste as a resource; evaluate and implement beneficial uses for waste	NEW	N/A	N/A
1.2.1	Foster in-state market development for reusable, recyclable and compostable materials	NEW	N/A	N/A
1.2.2	Implement policies and programs to recover organics from the waste stream for beneficial use	NEW	N/A	M/A
1.2.3	Research alternatives for beneficial reuse of materials and gas generated by waste to energy, landfilling and the recovery processes	NEW	N/A	N/A
1.2.4	Continue to monitor emerging technologies and beneficial uses for waste, as well as applicability to overall solid waste management		1.3.2	The County shall conduct an annual review of technology and innovations available in solid waste management to exceed federal and state requirements.
1.3.0	Ensure the County leads by example through its own facilities, education and outreach	NEW	N/A	N/A
1.3.1	Continue education and outreach to support citizen awareness regarding waste reduction strategies such as composting, reducing contamination in recycling and utilizing reusable materials		1.5.3	The County shall continue its voluntary recycling public awareness program through increased education and the promotion of waste reduction in an effort to maintain the state recycling goal for newspapers, aluminum, glass and plastic containers.
			1.5.4	The Solid Waste Management Department will continue to promote and enhance the public information and educational programs concerning waste reduction, proper yard waste management techniques, composting and recycling
1.3.2	Expand recycling to all County facilities and special events on County property; track and enhance County recycling rate	NEW	N/A	N/A
1.3.3	Investigate the feasibility of requiring County construction projects to recycle construction and demolition (C&D) waste; explore requiring County-subsidized projects to employ reduction and diversion practices	NEW	N/A	N/A

Solid Waste Section Crosswalk
Proposed in Order
Version 2.0

1.3.4	Explore cross-departmental mechanisms to enhance the internal reuse of materials or supplies	NEW	N/A	N/A
1.3.5	Co-locate solid waste capital facilities to enhance the efficient use of land and energy and reduce costs	NEW	N/A	N/A
1.3.6	Continue to partner across County departments on innovative and multi-benefit solid waste management projects	NEW	N/A	N/A
1.3.7	Continue collaboration with regional partners on solid waste projects and programs	NEW	N/A	N/A
1.4.0	Continue resilient and sustainable solid waste management siting and practices that protect citizens and the environment	NEW	N/A	N/A
1.4.1	New Solid Waste Disposal Sites shall be located outside of the Coastal Planning Area		1.4.2	No new solid waste or hazardous waste management sites shall be approved for location in the Coastal High Hazard Area. No new public landfill sites shall be located in the Coastal Planning Area.
1.4.2	Solid Waste Management Facilities located in the Coastal Planning Area shall have an operations plan for effective management of waste prior to storm surge events			
1.4.3	Updates to the Solid Waste Master Plan shall consider the relocation of existing Solid Waste Management Facilities and Solid Waste Disposal Sites to areas outside of the Coastal Planning Area in lieu of replacement or renovation			
1.4.4	Explore options to allocate actual cost of service for collection and disposal of solid waste	NEW	N/A	N/A
1.4.5	Utilize collections contracts or other mechanisms to ensure new residential development does not adversely affect existing or new solid waste collection services	NEW	N/A	N/A
1.4.6	Continue to operate facilities that enable proper residential disposal of household hazardous waste and electronic waste.		2.1.2	The County shall continue to promote the recycling and proper disposal of household hazardous waste by maintaining the County's existing household hazardous waste collection center system.
1.4.7	Identify businesses generating hazardous or non-processible waste to ensure prohibited materials do not enter the solid waste stream		1.4.0	The County shall minimize the environmental damage attributable to the solid waste stream.
1.4.8	Meet, and where feasible, exceed all regulatory and environmental standards for operation of solid waste facilities		1.4.1	The County shall continue to review and evaluate existing solid waste disposal practices to ensure compliance with minimum

				regulatory standards of the Florida Department of Environmental Protection, the Environmental Protection Commission of Hillsborough County and the U.S. Environmental Protection Agency.
			1.4.0	The County shall minimize the environmental damage attributable to the solid waste stream.
			1.3.0	The County shall continue to operate solid waste facilities in compliance with minimum air, groundwater and surface water pollution standards established by federal, state and local laws, regulations and guidelines.
CIE 1.C.1.e	County Solid Waste Facilities: The Solid Waste Level of Service shall be 6.0 pounds of solid waste per capita per day disposal capacity in the Unincorporated Hillsborough County system service area.		CIE 1.C.1.e	The Solid Waste Level of Service shall be 8.0 pounds of solid waste per capita per day disposition capacity in the Unincorporated Hillsborough County system service area.
Def. Section	Solid Waste Management Facilities: Facilities dedicated to the management of municipal solid waste, including waste collection and transport; unloading, processing, and storage. These facilities are not permitted as Solid Waste Disposal Sites.	NEW	N/A	N/A
Def. Section	Solid Waste Disposal Sites: Sites permitted for the permanent disposal of municipal solid waste.	NEW	N/A	N/A
