

Solid Waste Section Crosswalk
Adopted in Order
Version 2.0

Current Element	Adopted Number	Adopted Language	Status	Proposed SW Language Number	Proposed Solid Waste Language
Solid Waste	1.0.0	Hillsborough County shall provide for an environmentally sound and efficient solid waste management system.		1.0.0	Lead in waste reduction, reuse and recycling in a cost-efficient manner to provide for sustainable solid waste management.
Solid Waste	1.1.0	The County shall maintain level of service capacity at all facilities consistent with the Capital Improvements Element.		1.1.9	Continue to meet the adopted LOS as outlined in the Capital Improvements Element using the integrated hierarchy as a primary strategy
Solid Waste	1.1.1	The County shall conduct an annual review of existing facility capacities to identify facility capacity deficiencies for County disposal facilities.		N/A	Deleted - programmatic
Solid Waste	1.1.2	Disposal facility deficiencies will be corrected prior to funding any solid waste program enhancements.		N/A	Deleted – shifting to sustainable solid waste management approach
Solid Waste	1.2.0	The County shall provide for increases in disposal capacity of solid waste facilities to meet future needs.		N/A	Deleted - shifting to sustainable solid waste management approach
Solid Waste	1.2.1	The County shall conduct an annual review of future facility needs and budget for those needs within the Capital Improvements Element.		N/A	Deleted - programmatic
Solid Waste	1.3.0	The County shall continue to operate solid waste facilities in compliance with minimum air, groundwater and surface water pollution standards established by federal, state and local laws, regulations and guidelines.		1.4.8	Meet, and where feasible, exceed all regulatory and environmental standards for operation of solid waste facilities
Solid Waste	1.3.1	The County shall conduct an annual review of facility operations and operating practices to evaluate compliance with federal and state requirements.		N/A	Deleted- programmatic
Solid Waste	1.3.2	The County shall conduct an annual review of technology and innovations available in solid waste management to exceed federal and state requirements.		1.2.4	Continue to monitor emerging technologies and beneficial uses for waste, as well as applicability to overall solid waste management
Solid Waste	1.3.3	Based on annual reviews, county staff shall provide recommendations of measures to correct or enhance the existing solid waste management system		N/A	Deleted - programmatic
Solid Waste	1.3.4	The level of service to be maintained by all facilities shall be as stated in the Capital Improvements Element.		1.1.9	Continue to meet the adopted LOS as outlined in the Capital Improvements Element using the integrated hierarchy as a primary strategy
Solid Waste	1.4.0	The County shall minimize the environmental damage attributable to the solid waste stream.		1.4.7	Identify businesses generating hazardous or non-processible waste to ensure prohibited materials do not enter the solid waste stream
				1.4.8	Meet, and where feasible, exceed all regulatory and environmental standards for operation of solid waste facilities
Solid Waste	1.4.1	The County shall continue to review and evaluate existing solid waste disposal practices to ensure compliance with minimum regulatory standards of the Florida Department of Environmental Protection, the Environmental Protection		1.4.8	Meet, and where feasible, exceed all regulatory and environmental standards for operation of solid waste facilities

Adopted in Order
Version 2.0

		Commission of Hillsborough County and the U.S. Environmental Protection Agency.			
Solid Waste	1.4.2	No new solid waste or hazardous waste management sites shall be approved for location in the Coastal High Hazard Area. No new public landfill sites shall be located in the Coastal Planning Area.		1.4.1	New Solid Waste Disposal Sites shall be located outside of the Coastal Planning Area
				1.4.2	Solid Waste Management Facilities located in the Coastal Planning Area shall have an operations plan for effective management of waste prior to storm surge events
				1.4.3	Updates to the Solid Waste Master Plan shall consider the relocation of existing Solid Waste Management Facilities and Solid Waste Disposal Sites to areas outside of the Coastal Planning Area in lieu of replacement or renovation
Solid Waste	1.4.3	The County shall on an annual basis provide recommendations for a program and implementation strategy to further environmental protection from solid waste within the County.		N/A	Deleted - programmatic
Solid Waste	1.5.0	The County's solid waste management system shall take all practical measures to minimize the volume of the solid waste stream.		N/A	Specific Objective deleted but concept remains and is expanded upon in more detail in the proposed Section. See proposed Objective 1.1.0 and Policies 1.1.1-1.1.7
Solid Waste	1.5.1	The County shall continue recycling programs to separate the majority of newspaper, glass, plastic bottles, steel cans and aluminum cans reaching County disposal facilities.		N/A	Specific Policy deleted as programmatic in nature but concept remains in proposed Section. See proposed Objective 1.1.0, and proposed Policies 1.1.5 and 1.2.1.
Solid Waste	1.5.2	The County shall continue to review and implement recycling and waste reduction programs designed to reduce the per capita solid waste stream reaching County disposal facilities in compliance with state legislative guidelines.		1.1.0	Specific Policy deleted but concept remains and is expanded upon in more detail in the proposed Section. See proposed Objective 1.1.0 and Policies 1.1.1-1.1.7
Solid Waste	1.5.3	The County shall continue its voluntary recycling public awareness program through increased education and the promotion of waste reduction in an effort to maintain the state recycling goal for newspapers, aluminum, glass and plastic containers.		1.3.1	Continue education and outreach to support citizen awareness regarding waste reduction strategies such as composting, reducing contamination in recycling and utilizing reusable materials
Solid Waste	1.5.4	The Solid Waste Management Department will continue to promote and enhance the public information and educational programs concerning waste reduction, proper yard waste management techniques, composting and recycling.			
Solid Waste	2.0.0	Hazardous waste will be handled in a manner which minimizes risk to the citizens and the environment.		N/A	Incorporated into Environmental & Sustainability Section – scheduled for adoption June 17, 2021

Solid Waste Section Crosswalk
Adopted in Order
Version 2.0

Solid Waste	2.1.0	The County shall continue to develop and maintain its existing comprehensive hazardous waste management and emergency response programs which facilitate source reduction as well as the proper transfer, storage, disposal and recycling of hazardous materials and hazardous wastes.		N/A	Deleted - all hazardous waste language to be handled in Environmental & Sustainability Section. Policy reviewed and vetted during that update process and determined not to be necessary
Solid Waste	2.1.1	The Fire Department shall continue to assist the Environmental Protection Commission with its responsibility to promote public education on the types of hazardous materials and hazardous wastes as well as their proper use, storage and disposal.		N/A	Deleted - all hazardous waste language to be handled in Environmental & Sustainability Section. Policy reviewed and vetted during that update process and determined not to be necessary
Solid Waste	2.1.2	The County shall continue to promote the recycling and proper disposal of household hazardous waste by maintaining the County's existing household hazardous waste collection center system.		1.4.6	Continue to operate facilities that enable proper residential disposal of household hazardous waste and electronic waste
Solid Waste	2.1.3	The County shall maintain a comprehensive chemical emergency preparedness program, including the continued operation of a hazardous materials response team. The County shall identify legal mechanisms to obtain payment for cleanup from the responsible parties.		N/A	Deleted - all hazardous waste language to be handled in Environmental & Sustainability Section. Policy reviewed and vetted during that update process and determined not to be necessary
Solid Waste	2.1.4	RESERVED		N/A	Deleted – reserved policy (previously deleted)
Solid Waste	2.1.5	The County and the Environmental Protection Commission shall ensure that existing hazardous waste generators, as well as hazardous waste transporters and treatment/storage/disposal facilities, are identified and regulated.		N/A	Incorporated into Environmental & Sustainability Section – scheduled for adoption June 17, 2021
Solid Waste	2.1.6	The Environmental Protection Commission shall continue to regulate and revise, where necessary, all Class I and Class III landfill operating plans to ensure that adequate safeguards exist to prevent the disposal of hazardous wastes.		N/A	Incorporated into Environmental & Sustainability Section – scheduled for adoption June 17, 2021
Solid Waste	2.1.7	The County shall, upon request of other local governments, the Tampa Bay Regional Planning Council or the state, provide technical assistance in the planning and location of a hazardous waste treatment/storage/disposal facility to minimize the potential for adverse environmental impacts and to protect public health and safety.		N/A	Deleted - all hazardous waste language to be handled in Environmental & Sustainability Section. Policy reviewed and vetted during that update process and determined not to be necessary
Solid Waste	2.1.8	The County initiated an interlocal agreement with the Environmental Protection Commission (EPC) that ensures that 20 percent annual verification inspections of small quantity hazardous waste generators within the County are performed, and that EPC will ensure corrective actions for Small Quantity Generators (SQGs) where necessary.		N/A	Incorporated into Environmental & Sustainability Section – scheduled for adoption June 17, 2021

Solid Waste Section Crosswalk
Adopted in Order
Version 2.0

Solid Waste	2.2.0	The County shall further federal and state regulatory agencies objectives relating to the enforcement of hazardous waste laws and regulations.		N/A	Deleted - all hazardous waste language to be handled in Environmental & Sustainability Section. Policy reviewed and vetted during that update process and determined not to be necessary
Solid Waste	2.2.1	The County shall request a comprehensive study of hazardous waste sites from the Environmental Protection Agency, the Environmental Protection Commission (EPC) of Hillsborough County, and the Florida Department of Environmental Protection in the inventory of hazardous waste contamination sites within County boundaries.		N/A	Deleted - all hazardous waste language to be handled in Environmental & Sustainability Section. Policy reviewed and vetted during that update process and determined not to be necessary
Solid Waste	2.2.2	The County shall continue to assist the EPC, in providing technical assistance to the Environmental Protection Agency and the Florida Department of Environmental Protection to rank clean-up priorities. The County shall continue to assist said agencies in their efforts to direct federal and state funds to the implementation of investigations, and clean-up actions for currently identified potential chemical contamination sites.		N/A	Incorporated into Environmental & Sustainability Section – scheduled for adoption June 17, 2021
Solid Waste	2.2.3	The County shall continue to assist the EPC, to direct federal and state funds to the implementation of cleanup actions for all currently identified Superfund sites within County boundaries.		N/A	Incorporated into Environmental & Sustainability Section – scheduled for adoption June 17, 2021
Solid Waste	2.3.0	The County shall further federal and state regulatory agencies management objectives relating to hazardous waste and hazardous materials laws and regulations.		N/A	Deleted - all hazardous waste language to be handled in Environmental & Sustainability Section. Policy reviewed and vetted during that update process and determined not to be necessary
Solid Waste	2.3.1	The County shall continue, through its Hazardous Materials Response Team, to provide emergency response to hazardous waste incidence thus reducing the potential risk to its citizens.		N/A	Deleted - all hazardous waste language to be handled in Environmental & Sustainability Section. Policy reviewed and vetted during that update process and determined not to be necessary
Solid Waste	2.3.2	The County, in cooperation with EPC, shall continue to provide the information needed by hazardous waste generators to comply with federal and state regulations.		N/A	Incorporated into Environmental & Sustainability Section – scheduled for adoption June 17, 2021
Solid Waste	2.3.3	The County shall designate an agency and provide necessary funding in order to continue to provide its employees a safe working environment through mandatory training for those employees who could potentially come in contact with hazardous wastes or materials at their job sites.		N/A	Deleted - all hazardous waste language to be handled in Environmental & Sustainability Section. Policy reviewed and vetted during that update process and determined not to be necessary
Capital Improvements	1.C.1.e	The Solid Waste Level of Service shall be 8.0 pounds of solid waste per capita per day disposition capacity in the Unincorporated Hillsborough County system service area.		CIE 1.C.1.e	The Solid Waste Level of Service shall be 6.0 pounds of solid waste per capita per day disposal capacity in the Unincorporated Hillsborough County system service area.
