Meeting of the TPO Board
Tuesday, January 11, 2022, 10:00 am

All voting members are asked to attend in person, in compliance with Florida's Government in the Sunshine Law. Please RSVP for this meeting. An accurate headcount will allow us to plan facilities. People attending in person are required to wear a mask while inside the County Center building consistent with CDC guidance. Some voting members may participate via web conference due to the ongoing national and local states of emergency re: COVID-19.

Audience members, presenters, and any others are asked to participate remotely, to minimize the potential for transmitting illness.

This meeting may be viewed on Hillsborough Television (HTV) by visiting Spectrum: 637, Frontier: 22 or live stream from Hillsborough County’s Live YouTube Channel or the County website’s Live Meetings link, also found in the County Newsroom. The agenda packet, presentations, and any supplemental materials are posted on the TPO’s online calendar.

Public comment opportunities:
To speak during the meeting - No later than 30 minutes before the meeting, please sign up here or phone 813-756-0371 for assistance. Provide the phone number you will call in from, so that we can recognize your call in the queue. You will receive an auto-reply confirming we received your request, along with instructions.

Comments may also be given up to 5pm the day before the meeting:
- by leaving a voice message at (813) 756-0371
- by e-mail to tpo@plancom.org
- by visiting the event posted on the Facebook page.

Advance comments will be provided in full to the board members and verbally summarized during the meeting by TPO staff.

Rules of engagement: Professional courtesy and respect for others at this meeting are expected, and failure may result in dismissal from the meeting. For more information on expectations for participation, please see the TPO’s Social Networking & Media Policy.

**Revised Agenda**

I. **Call to Order & Pledge of Allegiance**

II. **Roll Call** (Gail Reese, TPO staff)

III. **Approval of Minutes** – December 7, 2021
IV. **Special Presentation** – Recognition of outgoing longtime TPO Board Members  
(Beth Alden, TPO Executive Director)

V. **Public Comment** - 3 minutes per speaker, please. Staff will unmute you when the chair recognizes you.

VI. **Committee Reports & Advance Comments** (Bill Roberts, CAC Chair, Davida Franklin, TPO Staff, and Beth Alden, TPO Director)

VII. **Consent Agenda**
- A. Revised Committee Appointments
- B. Transportation Disadvantaged Legislative Message – reviewed by TDCB
- C. USF to Green ARTery Trail Study - presented at Policy Committee
- D. State of the System Report - presented at Policy Committee

VIII. **Action Items**
- A. TIP Amendments for FDOT Projects (Connor Macdonald, TPO Staff)
- B. Follow-up to the Downtown Interchange TIP Amendment Motions (FDOT Rep.)

IX. **Status Reports**
- A. PD&E Studies for I-75 from Moccasin Wallow Road to US 301 and from US 301 to Bruce B. Downs Blvd. (Ashley Henzel, FDOT Rep.)

X. **Executive Director’s Report**
- Sun Coast Transportation Planning Alliance [meeting of December 10](#)

XI. **Old Business & New Business**

XII. **Adjournment**

XIII. **Addendum**
- A. Announcements
  - I-275 Public Information Open House, January 5
  - HART Tampa Heights Public Design Charrette, January 15
  - Transportation surtax open houses, February 9 – March 3
  - Solicitation of projects for new TIP

- B. Project Summaries & Other Status Reports
  - FDOT Work Program Revised HTPO Project Highlights
  - FDOT Project Fact Sheet – 62nd Street
  - FDOT Project Fact Sheet – US 41
• FDOT Project Fact Sheet – I-75 Pavement Repair
• FL MPO Advisory Council Legislative Summary

C. Correspondence
• From TBARTA to Representative Webster

If a person decides to appeal any decision made by the board, he or she will need a record of the proceedings, and for such purpose may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.
I. CALL TO ORDER, PLEDGE OF ALLEGIANCE

The Chairman, Commissioner Cohen, called the meeting to order at 10:01 AM and led the pledge of allegiance. The regular monthly meeting was held in-person and virtual via WebEx.

II. ROLL CALL (Gail Reese, TPO Staff)

The following members were present in person: Commissioner Harry Cohen, Commissioner Pat Kemp, Commissioner Kimberly Overman, Commissioner Gwen Myers, Councilman Guido Maniscalco, Councilman Joseph Citro, Councilman John Dingfelder, Mayor Andrew Ross, Commissioner Nate Kilton, Gina Evans, HART Board Member Melanie Williams, Planning Commissioner Cody Powell

The following members were present virtually: Commissioner Mariella Smith, Bob Frey, Charles Klug

The following members were absent/excused: School Board Member Jessica Vaughn

A quorum was met in person.

Some members are participating virtually because of medical reasons and the local declaration of emergency.

III. APPROVAL OF MINUTES – November 10, 2021

Chair Cohen sought a motion to approve the November 10, 2021 minutes. Councilman Maniscalco so moved, seconded by Commissioner Myers. Voice vote: motion carries unanimously.

IV. SPECIAL PRESENTATION – Vision Zero Hero 2021 (Beth Alden, TPO Director) award presentation to Lena Young Green followed by a reading of Ms. Young Green’s nomination, a brief acceptance speech from Ms. Young Green, and a group photo with the TPO Board.

V. PUBLIC COMMENT –

Rick Fernandez – 2906 North Elmore Avenue in Tampa Heights. Serves as Vice Chair of the CAC, speaking today as an individual citizen. Written comments are included in reference. Noted that the Board approved operational and safety improvements in May for the Downtown Interchange project. Part of the plan was to add a lane to the flyover ramp from the south bound I-275 to east bound I-4. Understood that this lane addition would be accomplished within the existing infrastructure and interstate footprint. On November 17, 2021, accidentally learned that FDOT plans a major construction project with a new footprint to accommodate the additional lane and outward movement of the barrier wall, twelve feet, more or less, to accommodate the new
infrastructure. This intrusion will track from just south of Floribraska to Scott Street along the eastern border of Tampa Heights. Did not see this coming and believes he would have noticed. The wall movement and construction vision would break ground one block from his front door. Does not believe the Board knew this is what FDOT intended when plans were approved in May. Does not believe there has been a meeting of the minds between the Board and FDOT and the neighborhood. Believes that FDOT has negligently or intentionally withheld material facts. The action of the Board in May is suspect and open to criticism. Now that we all know and the Board is held accountable, the ask is to bring FDOT back for a full vetting of the DTI plans. Tampa Heights has asked for details, there are few; there are more questions than answers such as start and finish dates, road closures, vibration damage analysis, work schedules, property value impacts, construction takings, mitigation plans, and actual notification to property owners. Would like the Board to ask these questions and stop or revise the plan as called for. The people, many of you are elected to represent, are counting on you to have their backs and this is the first step in that process.

Bill Roberts – 14711 Clarendon Drive. Wanted to thank the Board for their efforts over the past year as we come to the close of the year. Noted that he has been around a number of years as have many of the Board members. Noted that we are planning for the future that will affect generations to come. Appreciates the efforts and the time taken to receive citizen input is greatly appreciated. Wishes the Board all the best for the holiday season.

Mauricio Rosas – Would like to talk about land use, sidewalks, and policy change. It is no surprise that we do not have a well-functioning mass transit system. This organization, in its’ different capacities, fails to put together and act on urban design grids. Noted that Secretary Gwynn has repeatedly said that FDOT is willing to partner on land use with this body to help in planning for a more robust transit system. If we don’t change current behavior, the same meetings will continue to be had over and over without accomplishing much in reducing the number of cars on the road. Sidewalks; recently, federal money was used in south county to widen roads. State law was not followed that says we must have sidewalks within a two-mile radius of all schools. Asked why kids are still walking on the road at dangerous intersections near I-275. Lastly, policy change communication. This Board makes decisions based on slide presentations and inuendoes of projects, we are not seeing the whole picture before a vote is determined. What is meant by this is how many of the Board knew that part of the barrier wall in the Tampa Heights area would be moved before voting for the project. And if you voted for the project knowing there would be some expansion within the right-of-way versus the existing structure, the least FDOT can do is notify the residents along the area at least 30 days before construction begins. People need to be notified before they buy or sell their houses. Asking this Board to be more detailed oriented. We cannot continue to allow this expansion without doing anything to reduce the number of cars on the road. That is what he wants the Board to own up to; reducing the number of cars on the road, communication, and sidewalks.

Adam Fritz – Lives in Tampa Heights on Central Avenue. Thanked the Board for allowing him to make comments on the Downtown Interchange plan. Believes it is imperative for FDOT to be transparent and honest with the community, given their history with TBX. Extra care should be
taken with any FDOT project that is coming in contact with historic neighborhoods. Because this is a design/ build project, that transparency has not been forthcoming. The message has been that they will not be outside of their footprint. To most, this has been welcome news. It has now been discovered that this may be true for FDOT definitions but not what will happen in reality to this design/ build. FDOT has said that they will take a minimum of twelve feet to the west side of I-275 into our neighborhood in the current design/ build structure. There may be more, there may be other things we don’t know. This design/ build is the path of least resistance and will not deliver a sure thing. This is troubling. His home is on Central Avenue; it is a historical home, the original home of the Robles family build in 1876. For twelve years, we have worked tirelessly in the neighborhood and on our own home to make it better and a contribution to the neighborhood. The back of our house faces Elmore Avenue within two-hundred feet of the I-275 structural well. His house is not listed in FDOT’s structures of concern nor are other historical homes on Central Avenue. This illustrates that FDOT has not done an adequate job of context of a sensitive area and all the potential impacts. Impacts to decreased property value; impacts to the tax base and revitalizing historic neighborhoods of Tampa; damages to property, especially historic structures due to construction vibration; what and when is testing and monitoring; what are the mitigation plans of some of the impacts that have not been addressed. Asking for more time to understand the plan and the impacts to the neighborhood and the City of Tampa overall. We are asking for opportunity to come up with more creative solutions that would stay inside the built footprint. Asked for a pause to this project to get a better understanding of the detrimental impacts before it is too late.

Michael Spokas – Lives in the Tampa Heights historic district at 210 East Ross Avenue. Expressed concern for the historic, four-unit building at 1902 Lamar that FDOT wants to demolish. There is no reason this property needs to be torn down. It is not in the footprint of the interstate and is a historic structure in the historic district. It’s not beyond repair, anything is salvageable. It needs someone who wants to save it. The property cannot, currently be moved. It should be allowed to be rehabbed in it’s current location like the Tampa Heights Community Center at Palm and Lamar. The units could be rented as affordable housing. This could solve three problems: saving a historical structure, help with the affordable housing issue in Tampa, and keeping more debris out of our landfills.

Andrea Martin – not online for comment

VI. COMMITTEE REPORTS & ADVANCE COMMENTS (Davida Franklin, TPO Staff)

A. Planning Commissioner Cody Powell (advanced recognition prior to Consent Agenda) – Noted the presentation on the FLiP and FLiP Jr. program at the end of the November meeting. Some of the Board members were not in attendance for this presentation. Encouraged everyone to rewatch the presentation when they have a moment to do so. The programs are fantastic and bring the community’s children into our world. Believes it is critical for elected officials to engage with the children and to inspire them to engage with local government. Local government is the only form of government that can affect change rapidly. Noted the quote from the opening slide of the
presentation. Encouraged the Board members to take the time to participate in the FLiP and/or FLiP Jr. programs in the future. He has participated and expressed it is special to see the kids get excited.

B. Chair Cohen noted that the Board is going to be hearing from FDOT at the January meeting regarding the concerns that have been raised about the Downtown Interchange project. Noted that Board members will have an opportunity to talk about that after the Committee report.

C. BPAC – Davida Franklin, TPO Staff (November 10, 2021 meeting)
• Approved the following Action Items:
  o Memorandum of Agreement for Bike/Ped Counters with FDOT.
  o Comments on FDOT RRR Studies
    ▪ The Committee heard a report on two resurfacing projects on Dale Mabry and Park Road. Plant City Staff provided comments in support of maintaining the 6 lanes currently on Park Road but also supported on-road bike facilities.
  o 2022 Meeting Calendar.
• Heard Status Reports on:
  o FDOT 56th Street/ 50th Street Corridor Planning Study
  o City of Tampa neighborhood Commercial District Plans
  o Tampa Downtown Partnership Bicycle and Pedestrian Counts
  o US Bicycle Route 15 through Hillsborough County
    ▪ This bike route has been identified by the Adventure Cycling Association, which is seeking to engage communities along the proposed route including Hillsborough County and Plant City Staff of the proposal.

D. LRC – Davida Franklin, TPO Staff (November 17, 2021 meeting)
• Approved the following Action Items:
  o Brightline SEIS Historic Resource Review comments
  o 2022 Meeting Calendar
  o USF To Green ARTery Trail Study – with the suggestion the draft study and alignments be reviewed by the Hillsborough County School District for feedback before finalization.
• Heard Status Report on
  o FDOT 56th Street/ 50th Street Corridor Planning Study
  o Tampa Downtown Partnership Bicycle and Pedestrian Counts

E. Public Comments Received Through Email & Social Media – Davida Franklin, TPO Staff
• Did not receive any emails or social media posts pertaining to today’s action items.
• Did receive comments about the Transportation Improvement Program that funded the Downtown Interchange in October.
• Copies of emails, letters, and social media comments have been forwarded via email to all TPO Board members on December 6, 2021 and December 7, 2021. Social media comments included at the end of the minutes.
F. FDOT COMMENT: Secretary Gwynn (speaking in response to Public Comment) – requested to speak about three issues that have been brought up as topics of discussion. FDOT will be speaking and discussing these topics at the January 2022 TPO Board meeting.

- Downtown Interchange and the walls that are going to need to be moved.
  o Noted words heard in public comment: dishonest, deceptive, non-collaborative.
  o Over the last five years, tasked his team to be completely transparent, collaborative, and be open and honest with the public about everything they do.
  o Just because people say things repeatedly does not make them true.
  o FDOT has not shown anything to the public that did not show the walls not being moved.
  o The wall movement was called out in graphics in public meetings.
  o FDOT did not say they were going to stay within the existing structural footprint but within the right-of-way footprint.
  o Committed five years ago that FDOT would take a hard look at the concepts being considered. Looked at and developed four plans. Came up with one that they feel is very collaborative. It takes out express lanes north of I-4 and does not take any additional right-of-way in Tampa Heights but utilize existing right-of-way as best possible to mitigate safety concerns within the interchange. Trying to mitigate the ~1000 annual crashes in that section.
  o It is not perfect and not everyone likes it. Made every effort to mitigate the impact on the Tampa Heights community. Have invested tens of millions of dollars into infrastructure improvements in Tampa Heights.
    ▪ FDOT submitted a RAISE grant for $25 million for the federal government to provide improvements in the Tampa Heights area. The federal government gave $18 million and FDOT provided the additional $7 million.
    ▪ Fought for and provided $68 million to extend the streetcar into Tampa Heights. That was before the local match. Made the streetcar free to make the federal funding more attractive.
  o Have shortlisted teams to move forward, will continue to work with the community, does not believe the comments made were true.

- Coming to the TPO Board in January 2022 to look at Robles Park solutions.
  o Will be bringing ideas for the Robles Park challenges.
  o There is no opportunity for federal or state funds for noise walls as the area does not meet the federal requirements for a noise wall. The state funds require the federal guidelines be followed. The only funding that may be possible are local funds and that is not recommended. FDOT will not stand in the way if that option is selected but, it is not a recommendation.
  o Will be bringing possible solutions utilizing state funds to the January meeting. Privacy wall, landscaping opportunities, trellis walls and other things that would be good solutions.
  o Understands it’s frustrating and doesn’t always make sense but, they have to follow the rules in place for federal and state funds.

- The home scheduled for demolition: 1902 Lamar
  o Not being demolished due to the SCIS. It is an unsound structure and a public nuisance based on police calls at the property.
o Have tried to find an investor that would move the home and rehab it. Have not found anybody willing to make that investment.
o Several problems including black mold, structurally not sound, unable to tour second floor, wood structure with stucco on the exterior.
o Was purchased in 2015 from a willing seller. The structural inspection at that time showed that these conditions were there in 2015. It may have gotten worse since then. But, at the time, it was not structurally sound.
o Because of the stucco on wood, it could collapse if it was moved. Would likely need to remove the stucco first which makes it unstable.
o Gave the local association sixty days to find their own investor. FDOT has been looking for years.
o Continuing to let it sit there and deteriorate is not a good solution. Doesn’t like tearing down any structure. But, unless someone is willing to work with FDOT on moving the structure and doing rehab, there isn’t another choice.

• Does not want to fall into the contentious and negative relationship from the past. Have tried to be very collaborative with the public. Knows it’s not perfect and people don’t like what we are doing. We have to find compromise. We have made a lot of progress and does not want to rehash things already decided. We need to move forward. Will continue to find ways to work with the public. Does not want to wind up back five years.

Discussion:

Commissioner Cohen: Knows we will get more into this in January. There is a full agenda today. Asked for brief comments at this time.

Commissioner Overman: Thanked Secretary Gwynn for answering some of the questions brought up in communications, social media, and public comment. The work to reconfigure underpasses on Chelsea and Osborne has already begun. There is an opportunity for FDOT to work with the community on underpass design and artwork associated. Noted that this relationship has not been developing in a positive way. Seminole Heights and Tampa Heights are very artistic communities. Other overpasses and underpasses have worked with the community in which they were changed. Asking that same effort be made and to report on how that is being done in the January report. Also asked for clarification on the noise wall and other solutions for Robles Park with dollar amounts. This will give the community an idea of a realistic decision on what they would like to see in that effort.

Commissioner Kemp: 1902 Lamar, has dealt with this in Seminole Heights. Was told they were unable to be helped. Some of the properties were moved and rehabbed. Asked if the land that the structure is sitting on could be made available to leave the home there and have it rehabbed.

Commissioner Myers: Asked if Secretary Gwynn would be willing to hold another community engagement meeting. The residents are saying that they didn’t know what was going on and were not informed. Have another meeting with the residents clarifying everything that was said today and come back next month with that information.

Secretary Gwynn: Would be glad to continue to work with the community. Had a recent meeting giving people the opportunity to come and talk. Would hope that the organizers from both sides would promote a meeting as an opportunity for constructive conversation. A good way to start would
be with the leaders of the community, come and sit down and talk and then try to expand that out. We are open to conversations. About the artwork, that is in the hands of the City of Tampa. The city is doing the public outreach for that. Happy to work with the city but that is the role the City of Tampa wanted. As far as the home, we are willing to look at solutions. The community association has been asked to come back to FDOT within sixty days if they can find someone who has a plan, and they will look at it.

**Commissioner Myers:** Asked to be notified of a community meeting as she would like to attend in support as a Commissioner and there may be other Commissioners and Board Members who would like to attend that meeting. Agrees that nothing will be accomplished if people are showing up to go back and forth. We can accomplish great things when we come together and discuss things in unity.

**Councilman Dingfelder:** Mentioned earlier that this is the 80th anniversary of Pearl Harbor. Agrees with Secretary Gwynn and hopes the TPO Board and FDOT do not end up in another “war”. Believes that the Secretary and his team have done a great job in the last five years of changing the attitude and relationship between the community and the district DOT. Does recall a comment when he originally came on the MPO/TPO that the interchange would not go beyond the existing footprint. Noted that the problem may be the definition of what is the footprint. Noted that the clarification may be that the right-of-way footprint is not changing but the actual structure will need to go out. Believes this may be an unintentional miscommunication and can be resolved with additional communication as suggested by Commissioner Myers.

**Councilman Maniscalco:** Believes that our generation and everyone here needs to pay attention to historic preservation. In the last half century, all that has been done is tearing down. Noted a conversation he had with an older gentlemen about historical structures and designs in the community; the gentlemen laughed and said that there was no historic preservation. Old buildings were torn down for parking lots, highways, and other things. Noted a LIFE magazine from 1963, article headlines with Erasing Our History about a structure being torn down from the 1930's. On his walk to County Center from City Hall today, noticed all the parking lots. Those used to be hotels and other structures that were brick structures made to last for centuries built by craftspeople. It is up to us to preserve what we can. When he was first elected, he asked the Mayor about the Jackson House. There was no interest at the time. It was in much better shape then. May have waited too long, hopes it is still restorable. It’s demolition by neglect. In the age where people are making a fortune in real estate, hopes someone will step up for this structure and develop it into affordable housing. Noted Burn’s Steak House, apartments next door, the Burn’s organization gutted it and are renovating the building.

**Secretary Gwynn:** Clarified that the structure is a wooden structure with stucco on the outside and not brick or block. If it was, it would be easier to move. The stucco will fall off. Most companies spoken to said they would take the stucco off before moving the structure.

**Commissioner Kemp:** Noted that FDOT has not spoken that the construction would be in the current footprint, it will be in the current right-of-way. Noted that this has always been fundamental to the conversation. There is no way to add additional lanes to the current structure. Said that this has been her focus since they have been looking at this for three or four years. Does not want misconceptions about the information presented.
Commissioner Cohen: The comments by the Board are thoughtful. Good that Secretary Gwynn is amenable to Commissioner Myers’ suggestion for a community meeting to create some dialog. People have mentioned Pearl Harbor today. He has been struck by the coverage of the passing of Senator Bob Dole. It has been about his unique ability to bring people together over the years. He did this across party lines and across divisions to get things done. The spirit of collaboration and cooperation that we want to see goes back to that time. Not everyone can get what they want but we can find common ground and compromise. We will be getting into the details of these projects at our next meeting to make sure there are no misunderstandings. Commissioner Kemp’s point was important. The issue of right-of-way versus current envelope was significant in coming to these solutions. The original proposals involved huge takings in the community that are no longer on the table. We will come back with this item in the new year.

G. CONSENT AGENDA
A. Committee Appointments
   • TDCB – Alexcia Wiggins, nominated by Hillsborough County Public Schools
   • BPAC – Christopher Fellerhoff, nominated by Hillsborough County and Richard Rank, as alternate
B. Memorandum of Agreement for Bike Ped Counters with FDOT (Wade Reynolds, TPO Staff)
   • The TPO is partnering with the Downtown Partnership for a pilot project to count Pedestrians and Cyclists using FDOT owned equipment.
   • Memorandum of Agreement allows for the use of the equipment for a three-week period of time in February for the first series of counts.
   • These counts are expected to be completed on an annual basis.
   • First set of automated, real counts done

Memorandum of Agreement for Bike Ped Counters with FDOT: TPO Board December 07, 2021 Agenda

Discussion:
Chair Cohen sought a motion to approve the Committee Appointments and the Memorandum of Agreement for the Bike Ped Counters with FDOT. Commissioner Overman so moved, seconded by Commissioner Myers. Voice vote: motion carries unanimously.

H. ACTION ITEMS
  • 2022 Board Officers and Committee Assignments (Cameron Clark, TPO Attorney)
    o Nominations can be made until there are no more. Votes will be taken on nominations received. Seconds are not required.
    o Asked for nominations for TPO Chair.
      ▪ Commissioner Kemp nominates Commissioner Cohen. No other nominations.
      ▪ Commissioner Myers requested to close the nominations for TPO Chair. Commissioner Cohen is TPO Chair for 2022.

Discussion:
Commissioner Cohen – Thanked the Board. Noted that under term limits, the Chair is limited to two terms, this will be his last term as Chair.

- Asked for nominations for Vice Chair.
  - Commissioner Cohen nominates Commissioner Kemp. No other nominations. Commissioner Kemp is Vice Chair.

- Policy Committee; recommends an odd number. Asked if the Chair would like the members of the Policy Committee to be reviewed. Commissioner Cohen recommended that everyone participate in the Policy Committee. Noted that Mr. Waggoner is a member and is retiring soon. We need to make sure to replace him. Mr. Clark noted that the current membership of the Policy Committee is Commissioner Kemp, Councilman Maniscalco, Commissioner Smith, Director Waggoner, and Commissioner Cohen with alternates of Commissioner Overman, Director Anderson and Mr. Klug. It would be advisable to have one more member appointed and if that member is an alternate, appoint an additional alternate. Commissioner Overman volunteered to move to a regular member if possible and ask for someone to take her place as an alternate. Commissioner Myers and Councilman Dingfelder volunteered to be an alternate. Councilman Dingfelder deferred to Commissioner Myers. Policy Committee membership will be Commissioner Kemp, Councilman Maniscalco, Commissioner Smith, Commissioner Cohen, and Commissioner Overman with alternates being Commissioner Myers, Director Anderson, and Mr. Klug.

- TMA Leadership Group current members are Councilman Dingfelder, Commissioner Overman and Commissioner Kemp with backups of Director Anderson and Director Lopano. Councilman Dingfelder no longer wishes to serve on that group. Councilman Citro would like to serve on the group. No objection. The TMA Leadership Group is Commissioner Overman, Commissioner Kemp, and Councilman Citro with backups being Director Anderson and Director Lopano.

- Transportation Disadvantaged Coordinating Board Chair is presently Commissioner Smith who no longer wishes to serve in that capacity. Commissioner Myers would like to serve as the TDCB Chair. She is appointed with no objections.

- Livable Roadways Chair is currently Councilman Citro who would like to continue serving as the Chair. He is appointed the LRC Chair with no objections.

- MPO Board Alternate since the MPO Board Chair is automatically appointed to that council. The alternate is presently Director Anderson or Mr. Klug. No objections to that going forward.

**2022 Meeting Calendar** (Beth Alden, TPO Director)
- Proposed 2022 calendar of meetings for the TPO.
- In the Agenda Packet, will send out calendar appointments.
- Continuing with 2nd Wednesday of the month. There are a couple of spots that will vary based on the County Commission meetings.

Calendar is attached to the December 7, 2021 TPO Board Agenda Packet.

I. **STATUS REPORTS**

Commissioner Cohen noted that the Ybor Multimodal Developments report would be moved to the end of the Status Reports as the City Council members may not wish to participate as this is coming before the City of Tampa.
A. Transportation Disadvantaged Program Update (Joshua Barber, TPO Staff)

- Review program introduction.
  - Disadvantaged are disabled, elderly, people at risk, and others that have no other means of accessing transportation.
  - Program provides transportation of last resort.
  - Trust Fund funded from vehicle registration fees and gasoline sales taxes.
  - BOCC is the administrator and the Sunshine Line is the operator.
  - Sunshine Line primarily provides trips through distribution of HART bus passes to those near a HART fixed route and that are able to ride the bus. They provide door-to-door for those outside of HART’s service area or individuals physically unable to use the fixed route system.
  - Eligibility is determined by state regulations and service area needs.

- Review of Transportation Coordinator Evaluation. Process consists of three parts.
  - Performance evaluation: safety, on-time performance, cost-per-trip, complaints, etc.
  - Survey of bus pass and door-to-door customers.
  - Workbook provided by the commission that covers regulatory areas such as insurance.
  - The CTC for this year covered the impacts from COVID-19: closing of aging service sites, suspension of group trips, and cancelling of non-essential medical trips. Sunshine Line found creative ways to respond internally and for the county including meal delivery services, providing transportation home from quarantine and isolation sites, providing transportation to vaccine sites, and they provided additional training for drivers and staff. At no time did Sunshine Line stop essential services.

- Annual Public Workshop – required
  - Discussed new technologies and options and challenges.
  - Several discussions on a number of topics.

- Every five years, the LCB and TPO Board recommend a CTC to the Commission for the Disadvantaged. The TPO Board recommended that the BOCC continue for the county. No procurement process was required. Incredibly happy for the county to continue in this capacity. Consistency and certainty are absolutely necessary for the individuals that rely on these services to meet their needs.

- Review of the Transportation Disadvantaged Service Plan (TDSP)
  - Within 180 days of the CTC designation, the Local Coordinating Board is required to adopt a brand new TDSP. This occurred at the October LCB meeting.
  - Provides consistency review of other plans, service areas including major employment areas, trip generators, demographic breakdown of the county, and the inventory of available transportation services.
  - Staff sent surveys to service providers across the county and received 29 responses from a variety of organizations. Over 20 of the respondents served over 100 clients at any given time. This outreach was inline with public outreach efforts. After the survey, phone conversations were held with 10 agencies.
  - Transportation for employment was one of the biggest needs. Cross county trips are still a major need.
  - Heard from service providers who were not aware of all the transportation services their clients may be eligible for across the county.
Future projections show an increase in TD population which may be higher due to increase in population and people becoming disabled due to COVID-19.

Identified barriers to coordination. The largest barrier is lack of funding for the transportation network across the county including non-vehicle areas of pedestrian modes across the network. Lower vehicle ownership and usage and a lack of awareness about transportation options across the county were also identified.

- Noted major projects that were wrapped up this year.
- Shared quotes from the evaluation this year.
- Thanked Commissioner Smith for her leadership over the last year and is looking forward to having Commissioner Myers as the leader this coming year.

Presentation: Transportation Disadvantaged Program Update

Discussion:

Commissioner Myers: Her honor to serve on this board in the coming year.

Commissioner Cohen: Thank Commissioner Smith for her service. He was also the Chair of that Board for a number of years as well as Councilman Viera was too. The services provided by Hillsborough County go very much appreciated by a lot of people in our community. Commissioner Myers, we wish you well on this assignment.

Commissioner Smith: Has been a pleasure and an honor to serve on this Board. The staff has been fantastic. Mr. Barber has been a passionate advocate for the transportation disadvantaged and the wide range that includes from economically disadvantaged to physically disadvantaged. It has been a wonder, informative, and personally enriching Board to serve on.

B. Infrastructure Investment & Jobs Act Overview (Beth Alden, TPO Director)

- There are a lot of slides that give details on the new federal law that provide a number of new grant opportunities both for planning and for infrastructure. Will be hitting the highlights. If a deeper dive is needed, the slides are provided and you can contact Beth Alden.

- Highlights
  - Almost doubling the amount of federal funding for transportation over a five-year period. Subject to annual budget decisions.
  - Gas tax no longer fully funds the highway trust fund, general revenue being used to supplement. Discussion on how to move forward with the declining gas tax revenue.
  - There are a lot of new grants in the new federal bill. Will likely take some time for Federal Highway/ Federal Transit to roll out the rules.
  - For Florida
    - Formula funding, we get a share based on population. Florida has been at a disadvantage for some time due to 2000 census numbers being used. Asked for 2020 numbers. Compromised on using the 2010 numbers.
      - Raising the numbers overall – all categories are up 25% - 30%, more or less.
      - Programs that the TPO gets directly involved with include
1. Surface Transportation Block Grant Program: our Board makes decisions and has direct authority over about $15 to $20 million a year under this program. Goes from the Federal to the State. It is then divided up between DOT and MPOs. The MPOs is based on population. Going up around 30% in the Service Transportation Block Grant Program. That means around $5 million additional dollars per year that could be allocated to the projects on the TPO priority list.

2. Transportation Planning: this funds the planning studies in our Unified Planning Work Program. Going up a little bit with additional strings including coordination with other regional MPOs. This is being done through the Suncoast Transportation Planning Alliance.

3. New Formula Grant Program, Carbon Reduction program: can be spent on any projects that reduce carbon emissions. Money comes to the states and is divided up between the DOT and MPOs. Estimating about $26 million to the MPOs in Florida. Our share may be around $1 million.

4. New Formula Grant Program, promoting Resilient Operations for Transformative, Efficient, and Cost-Saving Transportation. Not distributed to the MPOs, MPOs can compete for these grants. Work that has been done incorporating resilience into the LRTP may give the TPO a leg up when competing for these grants.

- Existing Competitive Grants
  i. Have been very lucky with the RAISE grants. Historically disadvantaged communities shall receive no less than 1% for projects and no less than 5% shall be for planning. This is going to be very competitive.
  ii. FTA Low and No Emission Bus Program
  iii. Intercity Passenger Rail Grants: have changed from a state of good repair to a more general intercity rail to bring world-class rail service to areas outside the northeast and mid-Atlantic. Up to 5% can be set aside for corridor planning.

- New Competitive Grant Programs – the TPO role with these, a few are planning related. The rest are to support infrastructure so the lead applicant would be local government or FDOT
  i. Freight Related Projects
  ii. Bridge Investment Program
  iii. SMART Program
  iv. Grants for Charging and Fueling Infrastructure
  v. Congestion Relief Program, this is a new opportunity to fund outreach programs.
  vi. Healthy Streets Program
  vii. Active Transportation Infrastructure Investment
  viii. Railroad Crossing elimination Program
  ix. Corridor Identification and Development Program – part of the intercity rail
  x. Safe Streets and Roads for All – supporting Vision Zero action plans

- New Pilot Programs
  i. National Motor Vehicle Per-Mile User Fee – as opposed to depending on the gas tax revenue.
Presentation: **Infrastructure Investment & Jobs Act Overview**

Discussion:

**Commissioner Overman:** Appreciates Ms. Alden trying to simplify what is a very complex bill. Asked if, in Ms. Alden’s opinion, many of the programs highlighted still require some level of local participation in either the grant or the competitive bid applications, is that still accurate. That is the case for much of our federal partnership funding now.

**Beth Alden:** In general, with the highway projects, the split is 80% federal and 20% local/state. In Florida, FDOT has been able to offer a soft match with toll credits. Have made that available to a lot of local governments. Have not heard yet from FDOT if they would be able to do that with all of the new programs being created. On the transit side, on the major capital projects, it is about 50% federal and 50% local/state.

**Commissioner Overman:** The rest comes from local funds, assuming we have some. Would like to have a robust planning conversation about the fiscal planning that the communities have to consider when we look at developing transportation plans. Make that available to those people managing budgets.

**Planning Commissioner Powell:** Noted that one of the items was funded with the gas tax. Questioned what will happen when gas tax goes away and everything is rolling out to EV.

**Beth Alden:** That is a question that has caused consternation for a number of years and it’s not getting any better. Gas tax revenue is continuing to decline. Most likely opportunity is to monitor how many miles a vehicle is driven to come up with a VMT fee.

**Commissioner Cohen:** Reminds him of when tax revenues from land lines started going away.

**Commissioner Kemp:** Noted that there is a false belief that 50% to 100% of our roads are paid for by gas taxes. 50% of all of it has been taken out of federal revenue already due to reductions in gas use. We have more vehicles that use less gas and the tax hasn’t been raised in a long time federally, in the state, or locally. We are paying for our roads which have gotten quite expensive with general revenue.

**Commissioner Cohen:** We have a lot to talk about with this. This is not the end of the conversation but the beginning. More will be discussed at the TMA workshop.

---

C. **Ybor Multimodal Developments** (Lisa Silva, TPO Staff and Graham Tyrrell, Kettler)

Prior to presentation, Chair Cohen invited Tampa City of Tampa representatives to adjourn at this time.
• Ms. Silva is the Livable Roadways Liaison. The LRC was approached to provide comments on the Historic Resources Impacts. The Brightline Rail project from Orlando to Tampa had a study in 2010. When modified, a supplemental impact statement is needed.
  o In 2010, the line was anticipated to go to the old Marion Center. It is now proposed to exit around 14th and 15th Street and go down Nuccio Parkway to the Union Station and Amtrak area.
  o Combined and mapped all the Historic Resources and identified additional locations. Sent comments as well.
  o At this stage, we were asked to provide Historical Resources. LRC went further and added equity and ADA compliance comments. Added historic architecture comments. Letter that was prepared and sent is in the December Agenda Packet.
  o Noted connecting neighborhood projects and improvements currently going on or planned in the area. Pointed out that there are not good ways to get from Union Station area to the other transit centers and that there are other at-grade challenges.
  o Do not want to design something that is going to prevent future opportunities.

• Gas Worx Overview – Kettler is partnered with Darryl Shaw.
  o Went over Kettler experience and specialization in large, multiuse developments
  o Gas Worx Vision – Connecting Neighborhoods and Bike and Pedestrian Friendly Streets are the highlights and focus in this presentation.
  o Area is between Historic Ybor, Channel District, and Encore – includes the old Tampa Bay Apartments and traditionally underutilized space that created a gap between Ybor and Channel District.
  o Striving to re-establish the Urban Street Grid from when the area was originally platted out. The connectivity started to breakdown in the 1960's.
  o Site is ~40 acres of land and ~15 different development parcels. The area is separated by the CSX tracks and Nuccio Parkway. Idea is to create an urban, walkable district with mixed use development.
  o Goal is to breakdown some of the barriers existing in the area. There is the potential for rail to exist in this corridor. Make the streets pedestrian and bike friendly.
  o Location is a natural convergence in the transit opportunities. Would like to develop a new streetcar stop and are anticipating a great need with people living and working in the area. Looking at transit-oriented development with higher density.
  o They are prioritizing bike and trail connections including connecting some of the existing elements in the area. Looking at creating a multiuse trail from Riverwalk to Ybor City using the CSX track area to create this opportunity.
  o Reviewed rendered images with the vision and showed the blending from Downtown into Ybor City with shifting architecture through Gas Worx.

Presentation: Ybor Multimodal Developments

Discussion:

Commissioner Kemp: Questioned the use of the CSX tracks and a multiuse trail and if that would be taking out the tracks instead of having the availability of the track.

Graham Tyrrell: No, the trail would be adjacent to the rail and using an abandoned spur.
**Commissioner Kemp:** Right now, there is an Amtrak train that runs from Union Station to Orlando once a day. Has been a proponent of increasing that schedule to make it a more viable option. Asked if there are any plans regarding Amtrak.

**Graham Tyrrell:** No, this development is focused on the building. Brightline is something they are aware of and they have talked about the use of the corridor. Not really involved in that and the same is true for Amtrak.

**Councilman Dingfelder:** Inquired about the Brightline part of the presentation and whether there would be a stop in Plant City or Lakeland.

**Lisa Silva:** The materials that have been shared with staff said the potential stop in Lakeland had been removed from the update.

**Councilman Dingfelder:** Asked if any development shows where the potential baseball stadium may be in the plan of the area of Gas Worx and/or future transportation plans that the City of Tampa has.

**Lisa Silva:** Showed a map that the City of Tampa shared showing the potential stadium site and infrastructure improvements including 14th and 15th Streets, the Green Spine, and the Nuccio Cycle Track. Pointed out the relationship between the stadium site, Gas Worx, the proposed Brightline section, and the existing streetcar line.

**Graham Tyrrell:** That is a good summary. The stadium is outside of the Gas Worx area.

**Councilman Dingfelder:** Asked if any of the renderings showed the baseball stadium in relation to the projects.

**Graham Tyrrell:** That has not been depicted in the Gas Worx drawings.

**Councilman Dingfelder:** In regard to the CSX spur, once the flour mill is gone, there will be no need for the spur. Questioned if that land will be purchased from CSX or what is known about that land.

**Graham Tyrrell:** Unsure of the details on that as he is not with SPP. We understand that they have some plans that are being worked on for that area of the spur.

**Commissioner Overman:** Noted that there are a lot of unanswered questions. The Downtown Interchange is going to drop a significant amount of traffic onto 14th and 15th. The city is trying to develop some mitigating strategies for that. We are talking about rail and possible commuter rail options on Friday. Much of this is very preliminary. The good news is that we are having the conversation. Happy to see these ideas. It is clearly early on. It looks like there is an opportunity to connect people in all the scenarios. We are not at a point where we can make any decisions at this point. The city is working on their potential needs. There is a lot of planning that needs to be done.
Looking forward to having those conversations as we look toward having mobility in the center core of the city.

**Commissioner Cohen:** This is the beginning of the conversation. Looking forward to having the discussions. This is the skeleton that shows how things connect together. As we look into the coming year, that is going to be our major challenge, how do we connect everything. How do we connect the neighborhoods, how do we move toward using some of these new funds available, these new developments coming on board, how do we make those give us transit and transportation alternatives that we’ve not had in the past? Noted that one of the speakers talked about getting cars off the road, this is really the only way to do it. If these things could all come together, they could create a very efficient system that would give our community a lot more alternatives than it has had in the past.

**J. EXECUTIVE DIRECTOR’S REPORT**

- Sun Coast Transportation Planning Alliance and Tampa Bay TMA Leadership Group Joint Meeting and Workshop on Rail: Friday, December 10, 2021, FDOT District 7 office, 9:30 AM – Noon. In-person and virtual.
- Commissioner Overman noted that the TMA members have business and they should plan to attend on Friday.

**K. OLD & NEW BUSINESS –**

- **Commissioner Cohen:** Noted that the two members who wanted to speak about Pearl Harbor are no longer here. Earlier this year, he had the chance to visit Pearl Harbor. Stated that it is a very moving experience and a great moment to pause and give thanks, this time of the year, for all the freedoms we enjoy and to the generation that we owe those freedoms to; for all those that fought so hard in the 1940’s to keep us free. Expressed holiday and new year wishes to everyone.
- Next meeting December 11, 2022, from 10:00 AM – 12:00 Noon.

**L. ADJOURNMENT** – The meeting adjourned at 12:03 PM

The recording of this meeting may be viewed on YouTube: [Meeting Recording](#)

**Social Media**

Rick Fernandez (posted on board meeting event page)

TPO Board and Staff:

For reasons set forth below, I am requesting the TPO Board revisit FDOT’s proposal for DTI Operational & Safety Improvements. This is a copy paste of my Facebook post published December 5, 2021. Many of you were tagged on this post:

"Good morning my TampaHeights family. History is repeating itself in the continuing stopTBX saga.

Subject of the day: Barrier Wall Movements along the eastern and southeastern borders of Tampa Heights.

To recap: our neighborhood has been in an abusive relationship with the Florida Department of Transportation since the 1960’s. The latest installment of this cycle began in 2015. It was in May of that year we first learned of FDOT’s plan to pave over a large segment of our historic neighborhood in service of the project then branded as Tampa Bay Express (TBX).

As the abused party in this relationship, we rose up. TBX eventually collapsed in 2016 under its own weight. Not because elected officials had our backs. They definitely did not (with one or two notable exceptions). No, it collapsed because of pesky details, hidden away in plan documents and glossed over by FDOT talking heads. Details finally explained, to great effect, using Legos. Thanks again to Caitlin Johnston and her team. You did us all a great service. Much of what Caitlin wrote in 2016 could be written again today with regard to these barrier walls: https://bit.ly/3ornMav

The Howard Franklin Bridge debacle ended some FDOT careers and embarrassed local politicians, many of whom were shown to be asleep at the switch when they should have been cross-examining FDOT’s agents.

Today we are faced with a similar situation related to FDOT’s proposed “Downtown Interchange Operational and Safety Improvements”. This time the issue is barrier wall movement along the west side (Tampa Heights’ eastern and southeastern borders) of the I-275 corridor from Floribraska Ave. to Scott Street.

FDOT plans to move this barrier structure approximately 12 feet (details from FDOT are murky) further into the neighborhood. Neighborhood impacts can only be imagined at this point since FDOT has failed to deliver specifics on road closures, vibration, dust, heavy equipment, start/finish dates, reduced property values, etc.
The current version of FDOT’s vision for the DTI Operational Improvements first came to my attention in May 2019 during a presentation to the MPO Citizens Advisory Committee (which I co-chair). At no time during that presentation or at any time since has FDOT mentioned the need to move this barrier structure.

I first learned of this plan while meeting with FDOT agents on November 17, 2021. The wall movements were mentioned in passing, as a given, just before I choked on my coffee.

Full disclosure: the proposed new wall construction/intrusion would begin approximately two blocks south of my property on Elmore Avenue. It won't directly impact my home, but I do expect collateral impacts. My neighbors to the south face a more troubling scenario.

Our TPO (f/k/a MPO) has approved FDOT's proposed operational improvements for the DTI. However, I do not believe they knew of this intended wall movement or the damage it would visit upon Tampa Heights.

I have asked TPO staff to place this matter on our CAC Agenda for January 2022 and intend to ask the TPO Board to revisit the DTI Operational Improvements proposal. This time with full disclosure from FDOT.

Perhaps it's again time to break out the Lego set."

Rick Fernandez
2906 N Elmore Ave
Tampa, FL 33602"

12/1
Micky Stuckey (in response to a TPO job post)
“The job is no longer available. The job description you are trying to view is no longer available.”

12/2
Micky Stuckey (in response to a TPO response about a job post)
“Hillsborough TPO sorry don't have 4 Master Degrees, only 26 years in Transit.”

Matthew Suarez
#TampaHeights and Rick Fernandez, The following correspondence has been issued to Florida Department of Transportation District 7 Secretary David Gwynn regarding the 1902 N. Lamar Ave. matter. Appropriate individuals from the Federal Highway Administration (FHWA) have been copied for accountability purposes. Both the correspondence issued to Secretary Gwynn & its exhibits have been attached to this post.
Citizen Issued Concern Violation of Tampa Interstate Study (TIS) - Supplemental Environmental Impact Statement (SEIS) 2017-2020 Commitments

Secretary Gwynn,

Please note - should the Florida Department of Transportation and its District 7 Office proceed with demolishing 1902 N. Lamar Ave. this Tuesday, November 30, 2021, both parties will be in violation of their commitments under the Tampa Interstate Study (TIS) - Supplemental Environmental Impact Statement (SEIS) 2017-2020.

Basis for the above violation is presented in the exhibit attachment titled: Exhibit 01_TIS-SEIS 2017-2020_1902 Lamar Not to Be Subjected to a Direct Adverse Effect via Preferred Alternative (Option E)

Basis for the intent of the Florida Department of Transportation and its District 7 Office to proceed with 1902 N. Lamar Ave. demolition is presented in the exhibit attachment titled: Exhibit 02_TIS-SEIS 2017-2020_1902 N. Lamar Ave_Demolition Intent

Document used to generate Exhibit 01 is cited below:

Database used to generate Exhibit 02 is cited below:
https://aca.tampagov.net/CitizenAccess/Welcome.aspx?TabName=Home&TabList=Home

We will look forward to your response regarding this concern.
The Preferred Alternative (Option E) would result in No Adverse Effect to these historic properties as highlighted in yellow in Table 4-2.

Language from Tampa Interstate Study (TIS) - Supplemental Environmental Impact Statement (SEIS) 2017-2020 - Final Section 106 Effects Analysis Case Study Report Update – July 2020 (the Document) identifying that yellow highlighted columns in Tables found within the Document relate to results associated with Preferred Alternative (Option E).

Preferred Alternative (Option E) as identified within the Document.

Table 4-4 from the Document identifying that the contributing structure at 1902 Lamar would not be subjected to a direct adverse effect via Preferred Alternative (Option E).
Meeting of the Bicycle Pedestrian Advisory Committee (BPAC) on December 8

The BPAC approved action items:

- USF to Green ARTery Trail Study – Members noted the low cost of the neighborhood Greenway concept and its proximity to Communities of Concern.
- Transportation Improvement Program (TIP) Amendments: Florida Department of Transportation (FDOT) Safety, Operations Lighting, and Railroad Crossing Projects – Members noted the proximity of the I-75 project to current improvements taking place on Morris Bridge Road and proposed a connection at this location to the proposed Bypass Canal Trail.
- Safe Access to Parks Pilot Study – Members noted a needed connection from the Upper Tampa Bay Trail to a nearby HART facility and asked when the toolkit would be available.

The BPAC heard a status report on the Ybor Multimodal Development. Members inquired about coordination with Brightline, timing and cost of the development, and the multimodal options envisioned on and off road. Members also discussed changes on Nuccio Parkway and connections to Channelside and Water Street.

Meeting of the Transportation Disadvantaged Coordinating Board (TD) on December 10

The TDCB approved action items:

- USF to Green ARTery Trail Study - Members discussed lighting along the trails, accessibility of crossings and other access issues, and asked questions about survey and public involvement responses.
- Transportation Disadvantaged Legislative Awareness Day and Message - Requested increased funding in the message as well as after-hours transportation for shift workers.
- Sunrise Community Coordination Contract - Members discussed cost per trip for this provider and how COVID-19 has impacted their cost-effectiveness.

The TDCB heard status reports on:

- City of Tampa Neighborhood Commercial District Plans - Members discussed parking, parking minimums, and relationship to pedestrian safety. Concerns about busses travelling down commercial streets, and accessibility of crosswalks.
- Sunshine Line Update - Members offered to connect Sunshine Line with CareerSource Tampa Bay for recruiting drivers, discussion of Aging Services reopening and ability of Sunshine Line to meet that demand.
- TDSP Follow-up
Meeting of the Livable Roadways Committee (LRC) on December 15

The LRC approved action items:
- Safe Access to Parks Pilot Study

The LRC heard status reports on:
- City of Tampa Neighborhood Commercial District Plans

Meeting of the Technical Advisory and Citizens Advisory Committee on December 15

The Citizen and Technical Advisory Committees held a joint meeting on December 15th.

TPO Chair, Commission Cohen provided inspiring words about the coming year and emphasized the critical role the committees play in guiding the TPO Board.

A quorum of both committees was present, allowing for the approval of all outstanding meeting minutes.

There were no questions regarding TPO Attorney Cameron Clark’s clear and concise refresher on Government in the Sunshine and Public Records Law.

Several items were presented for action.
**The USF to Green Artery Trail Study** was approved by both committees. Questions arose on the public input received and on how to demonstrate a higher score on the trails ability to improve access to transit. One outstanding vote expressed by a CAC member was to draw attention to the proposed design on Yukon showing a shared lane with motor vehicles – that a shared lane should have a speed limit no greater than 20mph, not the 30-35mph as shown.

**The nine TIP amendments** were discussed at length. There was concern that the highway safety improvements might not fit into the spirit of the Vision Zero category due to the addition of auxiliary lanes versus focusing on speed management. Some members agreed these lanes would serve the purpose of eliminating weaving movements, another would prefer the consideration of ramp metering as a solution. There was also questions regarding the need for right or way and if any properties were being proposed for taking. The amendment to add pedestrian crossing treatments on South Dale Mabry was generally supported by both committees with a caveat that full signalized crossings be considered and that the crossing design takes into consideration bicycles as well as pedestrian movements. The TAC approved the TIP amendments unanimously; on an 8 – 1 vote, the CAC approved the amendments except for the auxiliary lanes on I-4 and I-75, and with the proviso that the pedestrian crossings on S. Dale Mabry be designed to also accommodate bicyclists.

**The 2021 State of the System Report** received praise from both committees as it tells a clear story of the trends in our transportation systems. In comparison to the previous report from 2019, it was requested to include similar information from that report on the Smart Cities performance measure of percent of population affected by high vehicular emissions. In particular, the proximity of the population, calling out communities of concern, to high-volume roadway, and how that exposure leads to health concerns. The TAC voted to approve the report, with the understanding these details will be added to an updated State of the System Report. The CAC requested to table their approval until the January CAC meeting and expect to see those details included before taking a vote.
The 2022 Meeting Calendar was approved unanimously by both the CAC and TAC.

Meeting of the Technical Advisory on January 3

An in-person quorum was met.

Approval of the joint CAC-TAC December minutes were deferred until the February TAC meeting.

Action Items:
Safe Access to Parks – unanimously approved. Comments focused on next steps, how to move recommendations forward, who would be responsible. Depending on the countermeasure, it could be the responsibility of a jurisdiction’s Transportation Department or Parks and Recreation Department. A suggestion was made to provide the recommended improvements in a GIS format that could be layered on CIP projects, even stormwater, resurfacing, waste, etc. so that all departments would be aware of the needs surrounding a nearby park.

Hillsborough’s Request for an Additional Seat – unanimously approved. The TAC was reminded that the TPO Board will first consider and then approve the bylaws change over two meetings. If approved, Sarah Caper, the candidate from HC Community and Infrastructure Planning was present at the in-person meeting to observe.

Election of Officers – the current TAC slate of officers was re-affirmed for 2022: Jeff Sims, Chair; Mike Williams, Vice-Chair; Jay Collins, Officer At-Large.

Attendance Review and Declaration of Seats – no committee member was in jeopardy of losing their seat due to unexcused absences. The TAC’s airport representative, Gina Evans, offered to reach out to her contacts at the Port and the Trucking Industry to make them aware of vacancies on the TAC. A few changes will be made to the assignment of alternates to the current members. The committee was pleased that a HART representative has been assigned after the position was temporarily vacant.

Status reports were heard on:
City of Tampa Neighborhood Commercial District Plans – county staff asked if there was still opposition to a lane reduction on Bay to Bay as previously heard when being resurfaced a few years ago. City staff responded that there were still mixed support/opposition to removing a lane but that the city would consider a “pilot” project to see how the roadway performed, if the residents felt it was safer, and if sentiments changed.

Storm Evacuation and Shelter in Place Study – there was an agreement that although most residents have, or should have, a plan in place, many new residents are moving into the area and methods of notification of an impending storm are important. Members were supportive of the suggestions, although there was concern for using the emergency shoulder particularly on overpasses or other areas where the lane narrow or is not continuous. We learned the FDOT has a plan in place for use of emergency shoulders.
Revised Board & Committee Agenda Item

Agenda Item

Committee Appointments

Presenter

None – Consent Agenda

Summary

The **Technical Advisory Committee (TAC)** shall be responsible for considering safe access to schools in the review of transportation project priorities, long-range transportation plans and transportation improvement programs and shall advise the MPO on such matters. In addition, the TAC shall be responsible for assisting in the development of transportation planning work programs; coordinating transportation planning and programming; review of all transportation studies, reports, plans and/or programs, and making recommendations to the MPO that are pertinent to the subject documents based upon the technical sufficiency, accuracy, and completeness of and the needs as determined by the studies, plans and/or programs.

The following have been nominated to serve on the TAC:

- Brian McCarthy, by the City of Temple Terrace and Troy Tinch, as alternate
- Jay Collins, by the Planning Commission and Sofia Garantiva, as alternate
- Jennifer Malone, by the Planning Commission and Melissa Lienhard, as alternate
- Brian Pessaro, by TBARTA and Chris Jadick, as alternate
- Nicole Sutton, by the Department of Health and Chadeline Apollon, as alternate
- Chris Cochran, by HART
- **Christina Bouinois, as alternate, by Hillsborough County Aviation Authority**

The Bicycle/Pedestrian Advisory Committee (BPAC) shall be responsible for making recommendations to the MPO, Hillsborough County, City of Tampa, City of Plant City, City of Temple Terrace, the Hillsborough County Environmental Protection Commission, the Florida Department of Transportation, the Southwest Florida Water Management District, and others, on matters concerning the planning, implementation and maintenance of a comprehensive bikeway and pedestrian system. In addition, the BPAC shall be responsible for studying and making recommendations concerning the safety, security, and regulations pertaining to bicyclists and pedestrians.

The following have been nominated to serve on the BPAC:

- Katrina Corcoran, by the Planning Commission and Danny Collins, as alternate
The Livable Roadways Committee (LRC) shall be composed of representatives of local government departments, transportation agencies and other organizations. They may be elected officials, appointed officials, organization members, designated representatives or staff, but may not be staff to the TPO.

The following have been nominated to serve on the LRC:

- David Hey, by the Planning Commission and Mariann Abrahamsen, as an alternate

The Citizens Advisory Committee (CAC) shall be responsible for providing information and overall community values and needs into the transportation planning program of the MPO; evaluating and proposing solutions from a citizen’s perspective concerning alternative transportation proposals and critical issues; providing knowledge gained through the CAC into local citizen group discussions and meetings; and establishing comprehension and promoting credibility for the MPO Program. CAC members serve two-year terms.

The following has been nominated to serve on the CAC:

- Edward Mierzejewski, by THEA

The purpose of the Transportation Disadvantaged Coordinating Board (TDCB) is to assist the MPO in identifying local service needs and providing information, advice, and direction to the Community Transportation Coordinator (CTC) on the coordination of services to be provided to the transportation disadvantaged pursuant to Section 427.0157, Florida Statutes.

The following have been nominated to serve on the TDCB:

- John Vargas representing User of the System

The Intelligent Transportation Systems (ITS) Committee is responsible for assisting in the development of Intelligent Transportation System planning work programs, as well as reviewing ITS related studies, reports, plans, projects.

The following has been nominated to serve on the ITS Committee:

- Dexter Corbin, by HART and Chris Cochran, as alternate

**Recommended Action**

That the TPO confirm the above nomination

**Prepared By**

Cheryl Wilkening

Board & Committee Agenda Item

**Agenda Item:**
Transportation Disadvantaged Legislative Message

**Presenter:**
Joshua Barber, TPO Staff

**Summary:**
Every year, the Florida Commission for the Transportation Disadvantaged hosts a Transportation Disadvantaged Legislative Day in the Capital courtyard in Tallahassee. Members of the Transportation Disadvantaged community are encouraged to participate and to meet and thank legislators for their support.

The Hillsborough TPO’s Transportation Disadvantaged Coordinating Board has participated in this event for more than a decade. Annually, the TDCB prepares a flyer highlighting priorities and needs of our coordinated transportation system within Hillsborough County and the tri-county urbanized area. The message also informs the reader of several positions of the TDCB.

Transportation Disadvantaged Legislative Awareness Day is scheduled for February 16th in Tallahassee, Florida. The TDCB approved the attached 2022 Legislative Message at their December 2021 meeting. This Consent Agenda Item is a follow-up from the briefing the TPO Board received at their December meeting on the status of Hillsborough County’s TD program.

**Recommended Action:**
Approve the Transportation Disadvantaged Legislative Message for the 2022 Transportation Disadvantaged Legislative Day.

**Prepared By:**
Joshua Barber, TPO Staff

**Attachments:**
2022 Transportation Disadvantaged Legislative Message
The Transportation Disadvantaged program is an essential lifeline for thousands of members of our community. As such, the Hillsborough County Transportation Disadvantaged Local Coordinating Board would like to request your support for the following:

• **MAINTAIN FUNDING** for the Transportation Disadvantaged Program at a level consistent with future needs and population growth.

• **EXPAND FUNDING** for transit and paratransit systems and the Transportation Disadvantaged system which provide life-sustaining trips for seniors, persons with disabilities, low-income families, and children-at-risk.

• **NEW FUNDING** for programs that support innovative transportation technologies and address community identified needs, including cross-county mobility, weekends, and late-night trips for the Transportation Disadvantaged.

More About the Transportation Disadvantaged program
Since 1989, the Florida Legislature has funded transportation of last resort for older adults, persons with disabilities, low-income families, and children-at-risk through the Commission for the Transportation Disadvantaged (CTD) and local Community Transportation Coordinators (CTCs). These dollars have provided life-saving medical and health trips, essential business, shopping, employment, and education trips, as well as life-enhancing social and recreational trips, enabling all members of our community to fully participate in public life. Research has shown these trips create a significant return on investment for every dollar spent.

Agenda Item:
USF to Green ARTery Trail Study

Presenter:
Jennifer Musselman, Kittelson & Associates

Summary:
The USF to Green ARTery Trail Study evaluates connections from the University area to the existing and proposed trail system in Tampa and Hillsborough County. With the redevelopment of the University Mall (RITHYM), expansion of the Veterans Administration, and continuing growth around the University of South Florida, safe nonmotorized spaces are an increasing priority. The study area contains several high-volume roadways, and safe crossings and connections are a primary consideration.

The study kicked off in March 2021 and explored the feasibility of a trail connecting the University of South Florida (USF) and Veterans Hospital with the planned Green ARTery Perimeter Trail and other neighborhoods to the south of Fowler Ave., including proposed safe crossing locations on Fowler and other roadways. This study focuses on the potential alignments for the trail, and in coordination with area property owners and agency partners, provides recommendations on the feasibility of each alignment.

Recommended Action:
Recommend Approval of the USF to Green ARTery Trail Study

**Agenda Item**
2021 State of the System Report

**Presenter**
Vishaka Shiva Raman, TPO Staff

**Summary**
The State of the System Report summarizes the performance of the transportation system across Hillsborough County. The report is prepared using a data-driven approach to evaluate performance.

The 2021 State of the System Report analyses trends across the previous three years and summarizes the areas of strength and weakness. This report highlights data collected from various sources and jurisdictions that have been built into an interactive dashboard. This allows users to toggle through the various measures, explore data using maps and charts, and create reports for their needs. The dashboard is the product of a yearlong TPO effort to organize and consolidate data sources into one location and build a platform capable of producing analytics. It will include both the federally required performance measures, and additional data including Functional Classification and Roadway Ownership by Jurisdiction for roads, Trip Length and Duration, Level of Traffic Stress, and Accessibility to grocery stores, hospitals, and schools.

A sample of the performance measures and data to be reported include:

- Crash data
- Reliability
- Non-motorized Travel
- Infrastructure Conditions
- Jobs and Population

At the request of the TPO Policy Committee, the 2021 State of the System Report will represent the first edition of a series of quarterly performance reports, posted online. Production and distribution of these reports will allow for more informed decision-making and prioritization of investments based upon need.

**Recommended Action**
Approve the 2021 State of the System Report

**Prepared By**
Vishaka Shiva Raman, TPO Staff

**Attachments**
2021 State of the System Report Draft
State of the System Report 2021

The Hillsborough Transportation Planning Organization (TPO) publishes this executive report to summarize results of transportation data analysis tracking our community’s progress towards a safe, convenient, reliable, affordable, and well-maintained transportation system.

INTRODUCTION

The purpose of the State of the System report is to look at how our transportation system has performed in recent years, and whether we have made progress toward achieving our goals and federally reported targets. The data has been collected from several sources that date to 2010, and from the FDOT Work Program and Capital Improvement Programs (CIPs) of the jurisdictions to report the current spending trends for FY2021 through FY 2026.

In the three years since the previous State of the System report was published, this region served as a destination for several major events. Notably, the City of Tampa hosted both a Super Bowl & Stanley Cup championship and events. These celebrations brought visitors and allowed our traffic management systems to test route diversion plans and communication strategies with travelers.

Also during this reporting period, the COVID-19 pandemic caused one of the most significant disruptions to travel patterns in the past several decades. It dramatically impacted the ways that we travel, commute, and engage in recreational activities like walking or biking. As the pandemic raged on in the spring and summer of 2020 and health measures restricted travel, vehicle miles traveled (VMT) in Hillsborough County decreased by nearly 20%. The decrease reversed a decade-long trend of increasing VMT, which averaged approximately +3% annually since 2010, outpacing the population growth rate of 2.3% over the same period. More recent travel trends from FHWA indicate that the VMT growth has returned, increasing by almost 8% nationally, and almost by 9% in the Southeast region, in September 2021 compared to that in September 2020. It is also estimated that VMT will increase to the pre-COVID levels by the end of this year. In the context of transportation performance tracking, nearly all measures must be contextualized against the backdrop of the unusually low VMT during this reporting period as a result of travel restrictions, supply chain disruptions, and the increase of telecommuting.

GROWTH TRENDS

Since 2018, Hillsborough County has added approximately 61,000 people. While this number might seem large to some, the rate of growth over this three-year period (1.3%) was the lowest that it has been since the Great Recession of 2007-09. Unless otherwise noted, this report’s per capita performance measures are calculated using the most recent population data from the Census American Community Survey, which is 1,459,762 residents.

Looking ahead, the 2045 Population and Employment map (Figure 1) shows the areas experiencing the most growth and development and indicates where people will mostly likely live and work in the future. These projections give us an idea of where investments need to be focused to meet demand.
State of Good Repair & Resilience (SGR)

The SGR performance measures evaluate the condition of pavement, bridge, and transit assets, as well as stormwater & drainage. Maintaining the assets that we already own represents the single greatest need and expense across the county. With more than 12,000 lane miles, 862 bridges and more than 200 buses, ensuring that these assets do not fall into a state of disrepair is a critical need.

Pavement Condition

Hillsborough County has more than 12,000 lane miles of pavement divided among the unincorporated County (62%) Tampa Hillsborough Expressway Authority (THEA) (1%), FDOT (11%) and the cities of Tampa (22%), Plant City (3%) and Temple Terrace (1%). Quality of pavement is measured using a Pavement Condition Index (PCI) scale ranging from 0-100. Hillsborough County has categorized the PCI values into 4 categories, 0-25, 26-55, 56-85 and 86-100, with the higher range indicating a good pavement as shown in Figure 2. While each jurisdiction has its own PCI goals, this scale is an objective classification of quality of the pavement. The LRTP has set a broad goal to repave the major roads once every 17 years, yet only about 60% of the roads will be able to be resurfaced in this timeframe with the current levels.
Figure 2: Pavement Condition Index of all roads in Hillsborough County

The 11% of lane-miles in our county boundary maintained by FDOT include both State Roads and the National Highway System (NHS). The federal government requires monitoring of the NHS roads in two groupings: Interstate and Non-Interstate. NHS pavement condition in Hillsborough County is currently as follows:

- Percentage of Interstate roads in **good condition** is 59.5% (while statewide it is 68.5%)
- Percentage of Interstate roads in **poor condition** is 0.3% (statewide 0.3%)
- Percentage of Non-Interstate NHS roads in **good condition** is 36.3% (statewide 41%)
- Percentage of Non-Interstate NHS roads in **poor condition** is 0.1% (statewide 0.2%)

Hillsborough’s percent of Interstate and Non-Interstate NHS pavement in good condition lags behind our peers in the Tampa Bay Region (Pasco 95% and 58%; Pinellas 67% and 41%; Sarasota 94% and 34%) and the percentages narrowly fail to meet the TPO’s 2018 **Pavement Performance Measures target**. The
A majority of the lane-miles inside our county boundary are maintained by Hillsborough County -- about 7,250 lane miles -- and more than one-third of these are on major roads. With such a staggering inventory of pavement to maintain, the need is rapidly outpacing the annual funding commitment. Though today 18% of the major roads and 26% of the local roads are in poor or worse condition, that percentage is expected to rise to 65% and 79% respectively by 2030 if a more sustainable funding source for good repair does not become available. Recent estimates show that by 2031, the need is projected to be 10 times higher than available funding.
**BRIDGE CONDITION**

The National Bridge Inventory reports inspections for 819 bridges in Hillsborough County for 2021. Of that, 646 (76% of the bridges) were reported to be in good condition and only 4 (1%) of the bridges were found to be in poor condition. The Hillsborough County Bridge Condition is shown here.

Of these bridges, **491 are NHS structures**, with 420 (86%) rated in good condition and 0% poor. On average, NHS bridges in Hillsborough County stand in a better condition than in other parts of Florida. The chart showing the bridge condition for all the bridges in Hillsborough County is shown here. Further, this performance greatly exceeds the TPO's target to have more than 50% of NHS bridges in good and less than 10% in poor condition.

Hillsborough County owns the next largest share of bridges, reporting on 275 structures, of which 249 are rated on the National Bridge Inventory. The County reports that as of 2021, about **72% of its bridges are in good condition**. They are maintained with approximately $2 million each year, and unless funding increases to an estimated $12 million annually, the number of bridges in good condition is projected to drop to just 9% by 2030. Unfortunately, without timely attention to bridges falling into fair condition, costs mushroom quickly. The 2045 Long Range Transportation Plan (LRTP) found that the average cost for a major bridge rehab is $5.2 million while the average for minor repairs is just $122,000.
TRANSIT ASSETS

HART provides transit service across 255 square miles within the county and to approximately 810,000 people. The HART fleet includes fixed-route buses, paratransit vans and streetcars.

The 2020 HART fleet plan shows that 31 fixed-route buses, 21 paratransit vans, no streetcars, and 9 non-revenue vehicles have met their useful life and are now ready for retirement. It also indicates that about 41% of vehicles are not in a state of good repair. The 2045 LRTP estimates that if HART buses were replaced on time, the number of bus service calls/breakdowns on the road could be reduced by about half.

The Federal Transit Administration recommends that heavy-duty large buses reach a minimum of 12 years or 500,000 miles before retirement to ensure the effective use of federally funded assets. HART buses typically accumulate 60% more than that, or approximately 800,000 miles before retirement from service.

According to the 2021 HART Budget report, 58 paratransit vans were purchased over the last two years to replace aging vehicles, which represents about half of the van fleet. Currently, the average van age is 1.5 years.

RESILIENCE

About 20% of the major road network in Hillsborough County is vulnerable to inundation from a Category 3 hurricane’s storm surge. Another 11% is vulnerable to inland flooding as a result of severe rainfall events, defined as 9” of rain or more in 24 hours. Both types of severe weather events are becoming more common due to climate change. Because of these trends, when bridges are rebuilt, the new structures are frequently higher; for example, FDOT design standards for coastal bridges call for superstructure to be a minimum of one foot above 100-year wave crest including storm surge and wind. However, even as bridge structures are rebuilt, the waterway crossing may remain vulnerable because of low-lying causeways leading up to the bridge.

Our roads’ vulnerability may make them impassible not only while the waters are high, but afterwards as well, if the waters scour and erode the ground and any structures on which the roads depend. Roads remaining impassible after a severe storm event will hinder recovery efforts as well as reconstruction. The TPO’s Resilient Tampa Bay study identified 115 miles of critical road
segments that are highly or moderately vulnerable and estimated that the economic impact of these roads remaining impassible for only 2½ weeks would outweigh the cost of investing in resilience now.

Resilience investments include expanding and improving stormwater drainage systems, hardening the pavement and sub-base of roads, strengthening the shoreline, and adding breakwaters to reduce wave impact along coastal roads, and even raising the profile of some roads. These investments are most cost-effective when included in regular road or bridge maintenance activities. The 2045 LRTP estimated that including such investments in the local and state governments’ good repair programs would require increasing the budget for stormwater systems by about half and nearly doubling the budget for resurfacing projects.

**Spending on State of Good Repair and Resilience**

Investing in pavement, bridges, and transit to preserve existing assets is the TPO’s top priority. These investments are critical to ensuring a safe and efficient transportation system that is both resilient and reliable. In total, the jurisdictions across the county have allocated nearly $48 million for bridge rehabs and repairs as shown here, and $432 million for pavement maintenance over the next 5 years, shown here. In addition, the City of Tampa, Hillsborough County and the State have allocated roughly $195 million for maintaining stormwater and drainage systems. In combination, FDOT and HART have allocated nearly $268 million toward maintaining transit assets and repairing/replacing vehicles for the next 5 years. In addition to this, FDOT allocates money for general maintenance work including minor electrical and lighting repairs which totals to approximately $19 million each year. This means all the jurisdictions within Hillsborough County have allocated over $1 billion or approximately $208 million annually for the next 5 years for all maintenance projects which include roads, bridges, transit maintenance and other general structural maintenance. A detailed breakdown of spending by each jurisdiction in this category is shown in the table below.
Vision Zero

Vision Zero refers to a vision of zero traffic deaths for all road users, including drivers, pedestrians, and bicyclists. In the past few decades, driver and passenger death rates have declined with the implementation of vehicle safety features and on-road improvements such as guardrails, while pedestrian and bicyclist deaths have grown.

One of the biggest impacts of the COVID-19 pandemic on traffic safety was the national trend of fewer vehicles on state highways and arterials and, as a result, much faster average speeds. Data collected from red-light cameras that monitor drivers reported a 7% increase in speed during April 2020, when there were lockdown orders and travel restrictions in the Tampa Bay area. As reported by the FHWA, although the pandemic generated a nationwide reduction in VMT in 2020, the number of deaths did not decrease proportionately. The resulting fatality rates were considerably higher, which is likely attributable to the increase in travel speeds. While 2020 was an unusual year, 2021 has thus far shown a concerning number of crashes and fatalities across the county.

Traffic Crashes reported are based on the crash reports collected from the law enforcement to the Florida Highway Safety Motor Vehicles (FLHSMV) and are updated frequently. According to the data collected from the FLHSMV in early December of this year, there have been over 25,000 crashes in the Hillsborough County boundaries with over 200 fatalities since the beginning of 2021. Unfortunately, these numbers are higher than the previous year, at the same time that traffic appears to be returning to pre-COVID levels.

- **Number of Fatalities**: In 2019, Hillsborough County suffered from another year of exceptionally high traffic fatalities (218). At the outset of the pandemic in 2020, and as Annual Average Daily
Traffic (AADT) decreased by as much as 20%, we witnessed a slight decrease in the number of fatal crashes through the first 6-8 months of that year; but it picked up in the last quarter of 2020. Unfortunately, from the beginning of 2021 through the end of November, FLHSMV reports that there have already been over 200 fatalities. The number of fatalities reported from 2018-2021 can be found here.

- **Rate of fatalities**: The rate of fatalities is the total number of fatalities per 100 million Vehicle Miles Traveled (MVMT) over a five-year period. The average rate of fatalities from 2018-2020 was 1.42. To meet the performance target set by the TPO, the rate would need to drop to 1.38 or lower for the 2017-2021 period.

- **Number of serious injuries**: The number of serious injuries is calculated as the total number of crashes with at least one person with a serious injury during a calendar year. The number of serious injuries has continued to drop in the last 3 years since 2018 as shown on the chart. During the period from 2018-2020, the average annual number of crashes with serious injuries was 1,176, which is lower than the TPO adopted target for 2021 (five-year rolling average) of 1,201.

- **Rate of serious injuries**: The rate of serious injury crashes is calculated as the total number of serious injury crashes per 100 MVMT in a calendar year. The rate of serious injury crashes during the period from 2018-2020 was 8.48 and is anticipated to be 7.26 for 2021. If the trend holds, then this will be better than the TPO adopted target (five-year rolling average) of 8.49.

- **Number of non-motorized crashes with serious injuries and fatalities**: Since the last reporting period, the average number of non-motorized (for example, walking and bicycling) fatal and injury crashes has increased significantly, with over 220 crashes reported in 2020, and almost the same number reported since the beginning of this year as shown here. This is higher than the previous years, which could be attributed to more people cycling and walking for recreation, in the context of pandemic travel restrictions. The TPO’s target is for the five year rolling average number of annual crashes to be below 230 by the end of 2021.

Our peer counties in Florida reported a dip in crashes and crash rates in 2018 and then an increase in 2019. A comparison chart between Hillsborough County and other peer metros can be found here.
TRANSIT SAFETY

In 2021, the TPO adopted Public Transportation Agency Safety Plan (PTASP) targets for the first time. Transit safety performance garnered much attention in 2019 following a tragic incident in which a passenger fatally stabbed a HART bus driver. This incident prompted HART to implement numerous security measures. In the time since, HART has invested more than $1 million to install plexiglass barriers on 180 buses and 12 HARTFlex vans. HART reports an average of less than 6 safety events per 100,000 revenue miles, which is less than the adopted PTASP targets for this year.

SPENDING ON VISION ZERO

To accomplish the goals of the Vision Zero program, the 2045 LRTP identified a bundle of improvements with documented safety benefits for all road users, referred to generically as Complete Streets improvements. The analysis done for the LRTP indicated that additional funding equivalent to a 1-cent sales tax invested in safety projects could reduce crashes by an additional 35% by 2045; and that in the absence of that funding, crashes could be reduced by about ten percent with the trend spending of $18
million per year. Though the amount of funding for safety is not close to the $65 million per year needed for a 35% reduction, we are pleased to report that $132 million has been programmed over the next five years by all the jurisdictions in Hillsborough County, which amounts to almost $27 million annually. The detailed spending by the jurisdictions within Hillsborough County can be found here.

![Figure 5: Spending on Vision Zero Category FY 2022-26](image)

**Smart Cities**

The focus of the Smart Cities program is to make use of operational strategies, traffic management systems, and technologies to improve traffic flow, Travel Time reliability and air quality.

**Travel Data**

According to FDOT, the total daily vehicle delay for National Highway System (NHS) roads in Hillsborough County in 2019 was 48,700 hours; and Vehicle Miles Traveled (VMT) were 21.9 million miles in 2019. This dropped to **19.4 million miles** in 2020, accounting for about 11% reduction. The reduction in travel in the beginning of 2020 owing to the travel restrictions due to COVID-19 pandemic picked up towards the end of the year. People were limiting their travel to local destinations, especially within Florida. Data collected from FDOT’s Highway Mileage and Travel, and the American Community Survey indicate that the VMT greatly dropped in 2020. The Annual Daily Vehicle Miles traveled in all Hillsborough County roads for 2020 was **36.3 million miles**, which was a 10% drop compared to the previous year. Pandemic travel restrictions and the decision by many to work from home caused the daily average VMT to drop to 13.26 miles per person per day in 2020. The State Highway System (SHS) VMT also declined, from 15.6 to 13.9 in **2020**. VMT on all public roads in Hillsborough County followed a similar trend, dropping from 27.4 miles per person per day in 2019 to 24.9 in 2020, illustrated here.
One research study from 2020 indicates that more than half of all American workers wish to telecommute after the pandemic ends, although there has been an increase in vehicle miles traveled through September 2021 nearing pre-pandemic levels, according to the Federal Highway Administration (FHWA) Traffic Volume Trend report. This possibly indicates a shift in travel trends, where there has been a rise in travel for non-commuting purposes.

The mean travel time to work reported from Census data for 2019 was 27.5 minutes, which has increased by about 7% over the last 5 years. The increase may or may not indicate increased delay experienced by travelers; another cause could be people moving farther away from their workplaces and tolerating a longer commute, as housing prices have increased over the same time period.

**Travel Time Reliability**

Travel Time Reliability (TTR) is a measure of how frequently the traffic is unpredictable. While some traffic congestion in major metro areas like Tampa Bay is inevitable, occasional severe spikes in delay are disruptive, creating unexpected costs for shippers, service people, and others who are depending on being able to adhere to a schedule. In this section, reliability means that four out of five weekdays, the travel time stays less than 50% longer at peak hour than at off-peak.

Interstate reliability: speed data collected for 2019 show that interstate highways were 89% reliable during AM peak hour and 66% reliable during the PM peak hour. As of 2020, overall travel times on the interstate are reliable in Hillsborough County 75% of the time. This performance meets the TPO's target for system reliability precisely.

Non-interstate reliability: The non-interstate NHS roads comprise a greater proportion of roads in Hillsborough County than interstates. For this reason, non-interstate NHS may be a better indicator of overall performance than interstate reliability. Speed data obtained from 2019 report indicated that the non-interstate highways were reliable for almost 89% of the time during AM peak hour, and 77% during PM peak hour. In 2020, non-interstate NHS roads were considered reliable about 81% of the time, which greatly exceeds the TPO's adopted target of 50% as reported by FDOT.

**Truck Travel Time Reliability**

The Truck Travel Time Reliability (TTTR) Index is the metric used to assess truck movement reliability on the NHS, and is a tougher standard, evaluating the level of unpredictability one day out of twenty, as opposed to one day out of five. HERE data show that Hillsborough County has a TTTR of 1.89, which means that on the worst travel days, the average truck trip takes 89% longer than usual. This performance achieves the TPO target of score 2.00 or less.
**AIR QUALITY**

Vehicular air pollution is a direct outcome of traffic volume and congestion and is a public health threat in almost every urbanized area across the US. National air quality standards are monitored at the state and local levels by the Florida Department of Environmental Protection and the Environmental Protection Commission of Hillsborough County (EPC), which produce some data to assess the condition of our air. Air Quality Index Report is the standard matrix for measuring the quality of air at a location with a value ranging from 0-500. The higher the number, the greater the level of air pollution and a greater health concern. Poor air quality generally poses a greater risk for people with asthma and other underlying health conditions. According to the Environmental Protection Agency (EPA), Hillsborough County and Florida, in general, are currently in attainment with the National Ambient Air Quality Standards (NAAQS). In 2021, Hillsborough County experienced 74% of its days with a **Good Air Quality Index** score. The EPC operates 30 air monitors and 12 special purpose monitors that report Carbon Monoxide, Lead, Nitrogen Oxide, Ozone and Particulate Matter levels. The **average 2020 readings for ozone, nitrogen dioxide, sulfur dioxide, and particulate matter (PM) 2.5 all rated “good” on the Air Quality Index (AQI) scale. The average readings for PM10 rated “moderate” on the AQI scale.** The highest 1-hour average recorded for PM10 was 61.1 in early July, which is rated “unhealthy” on the AQI scale and was likely due to fireworks, of which PM10 is a notable pollutant.

Data reported in 2019 by the Florida Department of Health show that 8.9% of the adults in Hillsborough County have asthma, which is higher than the state average of 7.4%. The percentage of adults with diabetes is 10.9%, which is less than the state average of 11.7% for the same time period.

The 2021 Hillsborough County Health Rankings reports that 26% of adults in Hillsborough County are obese, which is marginally less than the state average of 27%. In 2019, however, the Florida Department of Health reported that 30% of adults in the county are obese. Taken together, it is likely that between one-quarter to one-third of adults live with this condition. Despite this status, Hillsborough County is reported to have a generally low percentage of adults with cardiovascular diseases. According to the Florida Health Heart Diseases Reports, as of 2019, only 4% of the people in the county have angina or coronary heart disease and 3.5% of adults have had a heart attack. The overall Heart Disease Death Rate is also low in Hillsborough County in comparison with some of the peer counties across Florida.
In Hillsborough County, more than one-quarter of the population lives in close proximity (within 300m) to a high-volume roadway that has greater than 30,000 vehicles per day as shown in Figure 2. Those living in a Community of Concern are even more likely to live near these roads and as a result, vehicular air pollution. Between 2018 and 2021, there were 10 fewer miles of high-volume roadways across Hillsborough County. Despite the VMT reduction, decreasing in the past few years, the percentage of the total population living within 300m has increased by nearly 7% and the percentage of the Communities of Concern population increased by 14%. More research is needed to fully understand the causes behind this significant increase.

Recently there has been a shift towards electric vehicles in the county. Increased use of electric vehicles is a promising development which may help to reduce vehicular air emissions. Despite alternative fuels gaining in popularity, increases in VMT and traffic congestion may threaten to offset emissions savings that could be gained from electric vehicles. The Florida Department of Motor Vehicles reported that Hillsborough County had almost 7000 Electric Vehicle registrations in the second quarter of 2021 and is anticipated to increase in the coming years.
HART recently launched a pilot program for the HART Smart AV Shuttle, which is a fully autonomous vehicle that serves three stops Armature Works, Water Works Park and Straz Center in partnership with the Florida Department of Transportation (FDOT), operated by Beep Inc. This is a positive step towards Smart Mobility by providing innovative transportation solutions.

**SPENDING ON SMART CITIES**

Investing in Smart Cities projects can effectively relieve congestion and improve delays to help traffic flow. The 2045 LRTP identified that Hillsborough County can reduce delay at major intersections by almost 44% with additional revenue generated from the equivalent of a 1-cent sales tax, thereby **improving travel time reliability by 20%**. Investments in intersection improvements, advanced traffic management system (ATMS) projects, traffic monitoring CCTV, advanced vehicle detection, real-time signal timing adjustments, ramp metering and speed harmonization can dramatically improve systemwide performance.

The various jurisdictions within Hillsborough County have programmed **$217 million**, or $43 million per year, to fund various Smart Cities projects for the five-year period from 2022-2026. This amount represents a **15% reduction in funding** when compared to the five-year period from 2015-2019. If this trend in existing funding continues, we will fall short of achieving the TPO’s forecast for 2045 of reducing delay on major roads by 40%. Hillsborough County estimates the shortfall in funding for its intersection improvement program at $296 million over the next five years; $415 million is needed and $119 million is available.
Real Choices When Not Driving

According to the Census Bureau, about 2.3% of the population lives in a zero-vehicle household. The TPO’s Transportation Disadvantaged Service Plan estimates about 2.8% or 43 thousand residents of Hillsborough County are disabled or have no access to a vehicle, putting them in a critical need category. By contrast, 31% of the county’s residents have the potential to be transportation disadvantaged due to age, income, or disability, and may need to rely on transit, walking, bicycling or other modes in order to access daily needs.

Transit Service

Transit Service Availability is an important factor to measure the amount of transit service available on our roads. Over the past three years, Vehicle Revenue Miles (VRM) dropped by more 60% compared to the pre-pandemic average, likely due to Mission Max, in which HART reduced service on several routes in an effort to provide more efficiencies and live within its budget. Looking at the amount of vehicle revenue miles provided per capita is a way to compare HART’s service levels with transit systems in other cities. HART’s VRM/capita dropped by 25% in 2021 compared to 2020, as HART scaled back service during the pandemic.
People and Jobs Served – Using the current service routes for HART, it was found that about **10% of the population and jobs in Hillsborough County are served with transit routes with 30-minute frequency or better**, while about **19% of the people and 39% of the jobs are served by a transit route with a 60-minute service or better**. The chart representing the jobs and people served by HART transit service can be found [here](#).

Ridership – HART currently serves more than 800,000 people and has an estimated ridership of 9.2 million as of 2020. [HART ridership](#) declined following a 2017 service area contraction and was greatly impacted again in 2020 due to the COVID-19 pandemic. Data from July 2021 show a decrease in ridership of about **28% (5,302,633 trips)** for all fixed route modes compared to the previous year.

Source: HART Data

Transit Trip Length - Average Transit Trip Length in 2020 is 4.73 miles as reported by the National Transit Database (NTD).
**On Time Performance** - HART has an average on-time performance rate of over 75% as reported in 2020. The average monthly on-time performance for the streetcar in 2020 was 99.79%, according to HART.

**Passengers per Revenue Hour** - is a measure used to quantify service usage and the number of passengers on each bus. This is calculated based on the total number of riders, divided by total number of hours the service is in operation and available to passengers. This measure is also helpful in looking at the different routes and comparing them. On average, Passengers per Revenue Hour dropped by nearly 39% from July 2020 to July 2021 according to HART’s Budget Report presented to their Board in September 2021, again in relation to the pandemic. The best performing routes were Route 34-Hillsborough Ave, Route 1–Florida Ave and Route 400-Nebraska/Fletcher MetroRapid, which all had approximately 16 passengers per revenue hour. The streetcar line had a higher passenger per revenue hour rate with a monthly average of 23.8 in 2020 despite a 43% drop between January and December.

**NON-MOTORIZED TRAVEL**

Non-motorized travel includes walking, biking and micro-mobility modes including electric scooters, carts, and bikes that operate at low speeds. Hillsborough County has over 554 miles of bike lanes, 1,225 miles of sidewalks, and 925 miles of paved trails and shared-use paths. Access to basic needs like food, education and healthcare is a challenge to these residents. This map below shows the places of interest that are accessible via a sidewalk.
The TPO established a new standard to assess the bike and walk facilities in the county. Level of Traffic Stress (LTS) is a way of accounting for the stress experienced by vulnerable road users. It is estimated based on the number of lanes, signal timing, posted speed limit, average daily traffic and existing walking and biking facilities on roadways. Roadways with LTS 1 offer less stress and comfortable to all road users, while LTS 4 indicates that the facility is uncomfortable for bicyclists and pedestrians. The Bike and Pedestrian LTS is an indicator for evaluating the streets which are safe and comfortable for bicyclists and pedestrians. It helps to recognize the improvements to the existing facilities to make it safe and comfortable for users and prioritize dollars accordingly.

In Hillsborough County 56% of roads are LTS 4 or worse for walking, and 70% are LTS 4 or worse for cycling.

**Spending on Real Choices When Not Driving**

Investments in multimodal options will help build a connected network of trails, multi-use paths, transit, and paratransit services for the transportation disadvantaged. **$635 million** will be invested by all the
jurisdictions on approximately 80% of the roads, build over 150 miles of trails, and improve transit and paratransit services.

Performance Based Planning and Programming

Transportation performance measurement is one step in a continuous cycle toward addressing the community’s needs. The cycle includes evaluating current conditions, setting goals and targets to improve conditions, prioritizing investments to make progress towards goals, and then evaluating conditions again as improvements are made. The 2045 Long Range Transportation Plan (LRTP) outlines our community’s long-term goals, and it groups projects into five categories based on their benefit to performance measures. These categories are as follows: State of Good Repair and Resiliency, Vision Zero, Smart Cities, Real Choices When Not Driving, and Major Projects for Economic Growth.

The Transportation Improvement Program (TIP) reports annually on investments in each of those categories and sets priorities for each coming year’s round of investments. The State of the System Report is the third leg of the stool, tracking our community’s progress in each of these five categories over time.

This cycle is referred to as Performance-Based Planning and Programming. Federal law requires that metropolitan planning organizations like ours in areas of 200,000+ population establish targets for performance measures to ensure that the states, transit agencies and the TPOs carry out transportation planning and focus on investments to prioritize the projects to achieve the targets. The TPO establishes policies and plans and support decisions to fund the longer-term visions through the LRTP as well as through the specific projects in TIP that helps to achieve the near-term goals as a result of the performance-based planning process.

One of the main objectives of the performance-based planning process is to report the current state of the transportation system and compare it with the target. This is achieved through the State of the System
The 2021 State of the System report is a representation of how the Hillsborough County has been performing in the last three years. In the upcoming reports, which will be updated frequently, there will be a focus on the measures that require immediate attention as part of the TPO’s plan to maintain the goals and vision of the county. This helps to keep the regional planning partners involved in our plans and allows decision-makers to make informed decisions and channel the investments towards projects that have been identified in our transportation plan.
**Board & Committee Agenda Item**

**Agenda Item**
Transportation Improvement Program (TIP) Amendments: Florida Department of Transportation (FDOT) Safety, Operations, Lighting, and Railroad Crossing Projects

**Presenters**
Connor MacDonald, TPO Staff

**Summary**
The Florida Department of Transportation (FDOT) requested this set of 9 amendments to the 2021/22-2025/26 Transportation Improvement Program to document the addition of state and/or federal funds for safety and operational adjustments. The nine amendments include I-4 and I-75 Safety and Operational Adjustments, State Road 60 and US 301 Lighting Projects, State Road 60 Railroad Crossing Alterations, and S Dale Mabry Pedestrian Safety Modifications. Concept diagrams and/or location maps in the presentation are attached.

Two amendments in this group comprise I-75 lane modifications. These include the addition of auxiliary lanes on northbound and southbound I-75 from south of the Tampa Bypass Canal to south of Fowler Avenue, a southbound distance of 1.29 miles and a northbound distance of 1.43 miles. They include the widening of bridges over Tampa Bypass Canal, Harney Road, and US 401. The purpose of these modifications is to improve safety and operations between the I-4 Interchange and Fowler Interchange by reducing merging and diverging maneuvers.

Two other amendments include I-4 lane modifications by adding an auxiliary lane on westbound I-4 from east of the Seffner weigh station to west of McIntosh Road, a distance of 0.725 miles. The purpose is to improve safety and operations between the I-4 weigh station and McIntosh Road by extending the McIntosh Road westbound I-4 entrance ramp. The goal is to improve the merging length and reduce hazardous maneuvers. It also includes the addition of an auxiliary lane on eastbound I-4 from east of Bethlehem Road to west of Branch Forbes Road, a distance of 0.57 miles. The objective is to improve safety and operations by extending the Branch Forbes Road eastbound exit ramp.

No additional right-of-way is anticipated to be needed for these auxiliary lane projects. These projects also include Integrated Corridor Management (ICM)/traffic congestion management technology. Specific technologies to be used are currently being scoped by FDOT and are to be determined.

This group of amendments also includes street lighting projects SR 60 from west of SR 39 to west of Clarence Gordon Jr Boulevard, US 301 from west of Crescent Park Drive to north of Elm Fair Boulevard, and US 301 from north of Hampton Oaks Parkway to west of Jackson Road. These projects will replace high-pressure sodium fixtures with LED fixtures on existing FDOT light poles.
Another amendment is a railroad crossing project located on SR 60 east of Clarence Gordon Jr Boulevard. The existing crossing will be replaced with a concrete tub and include a sidewalk over the crossing.

Finally, these amendments include the installation of signalized pedestrian crossings on South Dale Mabry Highway at West Mango Avenue, West Wisconsin Avenue, and West Pearl Avenue. These signals will feature pedestrian hybrid beacons with the aim of enhancing connectivity and safety for pedestrians.

To enable the commitment of funds to these projects, the TIP needs to be amended to add a total of $3.55 million in state and/or federal funds.

**Recommended Action**

Approval of the Transportation Improvement Program (TIP) Amendments.

FOR IMMEDIATE RELEASE
December 28, 2021

Funding for I-75 and I-4 Merge Lanes, Lighting, Railroad Crossing and Pedestrian Safety Projects up for Consideration

FDOT requests $3.5 million in Transportation Improvement Program (TIP) amendments

Tampa, FL - The Hillsborough Transportation Planning Organization (TPO) will consider nine Transportation Improvement Program (TIP) amendments to fund projects on I-75, I-4, State Road 60, US 301, and South Dale Mabry Highway.

The projects would involve safety and operational adjustments, lighting projects, railroad crossing alterations, and pedestrian safety modifications.

The Florida Department of Transportation (FDOT) made the request, and if approved, the TPO would add the amendments to the 2021/22-2025/26 Transportation Improvement Program to document the addition of state and/or federal funds.

The amendments include two projects to add auxiliary lanes on northbound and southbound I-75 between the I-4 and Fowler interchanges, improving safety by reducing the need to merge. Two other projects improve merging conditions along I-4, adding an auxiliary lane westbound from east of the Seffner weigh station to west of McIntosh Road, and eastbound from east of Bethlehem Road to west of Branch Forbes Road.

FDOT anticipates it will not need to buy land for these auxiliary lane projects.

Additional projects from the amendments include:
• Street lighting upgrades on State Road 60 south of Plant City, from west of State Road 39 to west of Clarence Gordon Jr. Boulevard
• Street lighting upgrades on US 301 in the West Brandon area, from west of Crescent Park Drive to north of Elm Fair Boulevard
• Street lighting upgrades on US 301 in the Thonotosassa area, from north of Hampton Oaks Parkway to west of Jackson Road
• A railroad crossing project on State Road 60 south of Plant City, east of Clarence Gordon Jr. Boulevard, that involves the replacement of the crossing and a sidewalk over the crossing
• The installation of pedestrian-activated hybrid beacons at crosswalks on South Dale Mabry Highway north of MacDill Air Force Base, at West Mango, West Wisconsin, and West Pearl Avenues, to enhance pedestrian safety

The TPO Board will consider the amendments on January 11, 2022, at 10 a.m. The public can comment on the amendments in advance of the meeting through January 10, 2022, via email to tpo@plancom.org; mail to Hillsborough TPO, Attn: Cheryl Wilkening, 601 E Kennedy Boulevard, 18th Floor, Tampa, FL 33602; voicemail beginning one week in advance of the meeting to 813.272.5940 (press 9); or social media by posting on the TPO Facebook page. Details on how to view or participate in the live meeting are posted on the calendar listing with the agenda one week ahead of the meeting at: planhillsborough.org

To review the amendments, visit https://bit.ly/3FoqCTJ. For inquiries, contact Connor MacDonald at macdonaldc@plancom.org or 813.946.5334.

About the Transportation Improvement Program (TIP)

The Transportation Improvement Program (TIP) is a list of upcoming transportation projects covering a period of at least five years. The TPO develops the TIP in cooperation with the state of Florida and public transit providers. Every year, the Hillsborough TPO adopts a new TIP based on the latest Florida Department of Transportation (FDOT) Work program. To see the most recent approved TIP or to learn more, visit planhillsborough.org/transportation-improvement-program-tip/.

Board & Committee Agenda Item

**Agenda Item:**
Follow-up to the Downtown Interchange TIP Amendment Motions

**Presenter:**
FDOT Representative

**Summary:**
In October, the TPO unanimously approved a TIP amendment to fund the construction of the “safety and traffic quick-fix” project at the Downtown Interchange (DTI). In addition, two motions were made by the board:

- That the TPO asks FDOT to fund the wall gap at Robles Park, with the same quality as the wall elsewhere, and report back within 90 days.
- That the TPO asks FDOT to return to us with a presentation and conversation about funding sources for the CAC and TAC suggestions, in concert with the noise wall motion.

For ease of reference, the CAC and TAC suggestions shown on the presentation slides at that meeting were:

- Consider Leading Pedestrian Intervals at intersections with additional turn lanes
- Accommodate cyclists riding to Cypress Point Park & Courtney Campbell Causeway
- Consider noise wall on west side of I-275 at Robles Park
- Consider more landscaping along noise walls
- Consider narrower lanes and wider sidewalks on 14th St, in coordination with the City of Tampa
- Implement traffic signal prioritization for buses on the ICM corridors, in coordination with HART
- Ensure new fences do not impede walk/bike access opportunities
- Refer to DTI as part of the High Injury Network rather than Vision Zero

**Recommended Action:**
Select a preferred barrier between Robles Park and I-275

**Prepared By:**
Beth Alden, TPO Director

**Attachments:**
Presentation slides
**Board & Committee Agenda Item**

**Agenda Item:**
I-75 Project Development & Environmental Studies

**Presenter:**
Ashley Henzel, FDOT

**Summary:**
Consistent with the TPO’s 2045 Long Range Transportation Plan, FDOT is conducting two Project Development & Environmental (PD&E) studies on I-75. The northern study covers the segment of I-75 from south of US 301 to north of Bruce B. Downs Blvd. The companion southern study looks at the segment of I-75 from Moccasin Wallow Rd (in Manatee County) to US 301.

As shown in the attached slides, FDOT proposes adding:
- Two 12-foot express lanes in each direction in the median of I-75
- Noise walls where needed and feasible
- Ramp modifications and/or new ramps at interchanges
- Right-of-way for stormwater facilities and some interchange modifications.

FDOT held a hybrid public hearing on December 16 from 5:30 – 7:30 PM at the Hilton Garden Inn, 4328 Garden Vista Drive, Riverview. The public was also able attend virtually via GoToWebinar by registering ahead of time through the project website (https://www.fdotd7studies.com/i75/index.html).

**Recommended Action:**
None; for information only

Public Information
Open House
Wednesday, January 5, 2022
6:00 p.m. - 8:00 p.m.

I-275 Capacity Improvements Project and the Downtown Tampa Interchange (I-275/I-4) Safety and Operational Improvements Project
The Florida Department of Transportation (FDOT) District Seven invites you to attend and participate in a public information open house for the two projects shown on the map. The I-275 Capacity Improvements Project (Financial Project Numbers: 431821-2-52-01, 443770-1-52-01) is currently in construction and extends along I-275 from north of I-4 to north of Hillsborough Avenue. The Downtown Tampa Interchange (I-275/I-4) Safety and Operational Improvements Project (Financial Project Numbers: 445057-1-52-01, 445056-1-52-01, 445056-2-52-01) is anticipated to begin construction in 2023. Both projects are in Hillsborough County, Florida.

---

Attend In-Person

C. Blythe Andrews Jr. Public Library
2607 E. Dr. Martin Luther King Jr. Boulevard, Tampa, FL 33610
Display boards and exhibits showing the project improvements will be available in an open house format. An informational presentation will run continuously during the open house. FDOT staff will be on-site and available to answer questions.

Complimentary on-site parking and designated handicap parking are available. Hillsborough Area Regional Transit (HART) bus routes 12 and 32 provide bus services to access C. Blythe Andrews Jr. Public Library.

Attend Virtually

GoToWebinar
register.gotowebinar.com/register/7199472816151689996
Those who cannot attend in person, may participate virtually by registering and joining the GoToWebinar. A narrated presentation will be shown at 6:00 p.m., 6:30 p.m., and
7:30 p.m. during the open house. Staff will be available throughout the open house to answer questions via the online chat function.

SIGN UP FOR CONSTRUCTION ALERTS
For more information on this project or to sign-up to receive construction updates and traffic alerts, please visit FDOTTampaBay.com

Facebook: www.facebook.com/MyFDOTTampa/
Twitter: twitter.com/MyFDOT_Tampa

For information about other Tampa Bay Next projects, visit TampaBayNext.com

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status.

Persons requiring special accommodations under the Americans with Disabilities Act to participate in this open house or persons who require translation services (free of charge) are asked to advise the agency at least seven (7) days prior to the open house by contacting: Jensen Hackett, FDOT Title VI Coordinator at (813) 975-6283 or (800) 226-7220, or Jensen.Hackett@dot.state.fl.us. If you are hearing or speech impaired, please contact the agency using the Florida Relay Service, 1 (800) 955-8771 (TDD) or 1(800) 955-8770 (Voice).

Comuníquese Con Nosotros: Nos importa mucho la opinión del público sobre el proyecto. Si usted tiene preguntas o comentarios, o si simplemente desea más información, por favor comuníquese con nuestro representante, Manuel Flores, (813) 975-4248, Manuel.Flores@dot.state.fl.us, Departamento de Transporte de Florida.

Subject: SCHEDULING - Locations for Transportation Surtax Open Houses

Please be advised that the Locations for the following Transportation Surtax Open Houses have been confirmed:

**District 1** - Wednesday, February 9, 2022, 6:00 PM –
    Jan K. Platt Regional Library, 3910 S. Manhattan Ave., Tampa, FL 33611

**District 2** - Monday, February 28, 2022, 6:00 PM –
    Northdale Recreation Center, 15550 Spring Pine Dr, Tampa, FL 33624

**District 3** - Tuesday, March 1, 2022, 6:00 PM –
    Lesley "Les" Miller, Jr. All People's Community Park and Life Center, 6105 E Sligh Ave, Tampa, FL 33617

**District 4** - Thursday, March 3, 2022, 6:00 PM –
    Riverview Public Library, 9951 Balm Riverview Rd, Riverview, FL 33569
NOTICE OF FUNDING OPPORTUNITY

Surface Transportation Block Grant Program Application
(SU Funds)
Application Cycle Opens: December 6, 2021
Application Cycle Closes: March 4, 2022

The Florida Department of Transportation (FDOT) is pleased to announce that the application cycle for the Surface Transportation Block Grant Program (SU Funds) is now open and will remain open until March 4, 2022.

General Information:
The Surface Transportation Block Grant program provides flexible funding that may be used by FDOT and Local Agencies for projects to preserve and improve the conditions and performance on any Federal-aid highway, bridge and tunnel projects on any public road, pedestrian and bicycle infrastructure, and transit capital projects, including intercity bus terminals.

Program Requirements:
Requirements can be found in 23 USC 133 and FAST ACT § 1109
- Projects must be prioritized on MPO Major Projects Priority Lists
- Can be used on state and local facilities

Refer to the Surface Transportation Block Grant Program (SU Funds) application for additional information, and references.

How to Apply:
Applications are available in the FDOT Grant Application Portal (FLGAP) located at https://www.flgap.com/ Each application package must include the following:
- Completed, signed, Surface Transportation Block Grant Program (SU funds)
- Detailed Engineer’s Estimate
- Project Location Map

Completed applications should be forwarded to your MPO for prioritization, no later than March 4,
2022. If you need assistance creating a log-in or accessing the FLGAP, contact Suzanne Monk at (813) 975-6721.

The key to a successful application is to provide enough information to allow the Department to evaluate the project based on clearly demonstrated need for the requested improvement(s). We look forward to receiving your application(s). Questions regarding this Notice of Funding Opportunity should be directed Suzanne Monk at (813) 975-6721.

Thanks,

Suzanne Monk, FCCM
Government Liaison
Florida Department of Transportation, District 7
11201 N. McKinley Drive, Tampa, Florida 33612
813-975-6721
NOTICE OF FUNDING OPPORTUNITY

Transportation Alternative Set-Aside Program (TA) Application

Application Cycle Opens: December 6, 2021
Application Cycle Closes: March 4, 2022

The Florida Department of Transportation (FDOT) is pleased to announce that the application cycle for the Transportation Alternative Set-Aside program (TA Set-Aside) is now open and will remain open until March 4, 2022.

General Information:
The TA Set-Aside program provides funding for programs and projects consistent with details described under 23 U.S.C. 133(h)(3), including 1) Transportation Alternatives, 2) Recreational Trails Program, 3) Safe Routes to School Program, and 4) planning, designing, or constructing boulevards and other roadways largely in the right-of-way of former Interstate System routes or other divided highways.

Program Requirements:
Requirements can be found in Transportation Alternatives Set-Aside Program Guidance and Procedures

- The department requires that locally administered infrastructure projects must be implemented by a Local Agency Program (LAP) certified agency; this includes phases of work leading to construction, or activities specifically identified in the definition of “construction” in Title 23 of the United States Code, Section 101(a)(4).
- To be eligible for funding under the TA Set-Aside Program, projects must fall under at least one of the ten categories outlined in the Table B: Eligible Project Categories in the FDOT Transportation Alternatives Set-Aside Program Guidance and Procedures.

Refer to the TA Set-Aside application for additional information, and references.

How to Apply:
TA Set-Aside applications are available in the FDOT Grant Application Portal (FLGAP) located at

image001.jpg
Each application package must include the following:

- Completed, signed, TA Set-Aside Application
- Detailed Engineer’s Estimate
- Detailed Scope of Services
- Project Location Map
- Certification of Implementing Agency

Completed applications should be forwarded to your MPO for prioritization, no later than March 4, 2022.

The key to a successful application is to provide enough information to allow the Department to evaluate the project based on clearly demonstrated need for the requested improvement(s). We look forward to receiving your application(s). Questions regarding this Notice of Funding Opportunity should be directed Suzanne Monk at (813) 975-6721.

NOTICE OF FUNDING OPPORTUNITY

Transportation Regional Incentive Program (TRIP) Application
Application Cycle Opens: December 6, 2021
Application Cycle Closes: March 4, 2022

The Florida Department of Transportation (FDOT) is pleased to announce that the application cycle for the Transportation Regional Incentive Program (TRIP) is now open and will remain open until March 4, 2022.

General Information:
The purpose of this competitive program is to improve regionally significant transportation facilities in “regional transportation areas.” State funds are available throughout Florida to provide incentives for local governments and the private sector to help pay for critically needed projects that benefit regional travel and commerce.

Program Requirements:
Requirements can be found in 339.2819 F.S.
- Projects must be prioritized and listed on the Sun Coast Transportation Planning Alliance’s (SCTPA) TRIP Priority Project List.
- FDOT will provide 50% of eligible project costs, and the county shall provide the balance.
- Projects to be funded with Transportation Regional Incentive Program funds, shall at a minimum:
  - Serve national, statewide, or regional functions and function as part of an integrated regional transportation system.
  - Be identified in the capital improvements element of a comprehensive plan that has been determined to be in compliance with part II of chapter 163, after July 1, 2005.
  - Further, the project shall be in compliance with local government comprehensive plan policies relative to corridor management.
  - Be consistent with the Strategic Intermodal System Plan developed under s. 339.64.
  - Have a commitment for local, regional, or private financial matching funds as a percentage of the overall project cost.
Support economic development and the movement of goods in rural areas of opportunity designated under § 288.0656(7).

Improve connectivity between military installations and the Strategic Highway Network or the Strategic Rail Corridor Network.

Refer to the TRIP application for additional information, and references.

**How to Apply:**

TRIP applications are available in the FDOT Grant Application Portal (FLGAP) located at [https://www.flgap.com/](https://www.flgap.com/) Each application package must include the following:

- Completed, signed, TRIP Application
- Location Map
- Detailed Cost Estimate
- Detailed Scope of Services
- CIP Page
- Proposed Project Schedule

Completed applications should be forwarded to your MPO for prioritization, no later than March 4, 2022. If you need assistance creating a log-in or accessing the FLGAP, contact Suzanne Monk at (813) 975-6721.

The key to a successful application is to provide enough information to allow the Department to evaluate the project based on clearly demonstrated need for the requested improvement(s). We look forward to receiving your application(s). Questions regarding this Notice of Funding Opportunity should be directed Suzanne Monk at (813) 975-6721.

The two I-75 segments are part of the TIP Amendments that Connor is presenting to the committees this month and TPO Board in January.

**FPID: 445317 1: I-75 (SR 93) From South of Tampa Bypass Canal To South of Fowler Ave**
Add auxiliary lane NB I-75 From south of Tampa Bypass Canal To south of Fowler Avenue. Widen bridges over Tampa Bypass Canal, Harney Road and US 301
Purpose - Improve safety and operations between I-4 and Fowler Interchange by reducing merging and diverging maneuvers.
ICM Technologies: Still scoping - TBD

**FPID: 445317 2: I-75 (SR 93) From South of Tampa Bypass Canal To South of Fowler Ave**
Add auxiliary lane SB I-75 From south of Tampa Bypass Canal To south of Fowler Avenue. Widen bridges over Tampa Bypass Canal, Harney Road and US 301
Purpose - Improve safety and operations between I-4 and Fowler Interchange by reducing merging and diverging maneuvers.
ICM Technologies: Still scoping - TBD

Hope this helps. Please let me know if you have any other questions.

Thanks,

**Suzanne Monk, FCCM**

Thanks Suzanne!

The two I-75 segments—are those funded to implement the current PD&E study? What can you tell us about the scope of the improvements?

Good morning, Beth. I wanted to reach out and provide you the Final Hillsborough TPO Project Highlights document. Please note that the projects listed in green have been added or advanced.

Please let me know if you have any questions or concerns.

Thanks,

Suzanne Monk, FCCM

North 62\textsuperscript{nd} Street
From CSX Intermodal Entrance to North of East Columbus Drive
Financial Project ID 433071-2-52-01

Project Description:
The Florida Department of Transportation is developing plans to reconstruct a 0.403 mile segment of N. 62\textsuperscript{nd} Street in Hillsborough County. Other improvements will include: addition of twelve-foot shared use path on the west side of the roadway, upgraded ADA features to meet current standards, and drainage improvements including a stormwater management pond. Improvements to the intersections of N. 62\textsuperscript{nd} Street/E. Broadway Avenue and N. 62\textsuperscript{nd} Street/E. Columbus Drive will include larger turn radii for trucks.

Project Location:
This project is located along N. 62\textsuperscript{nd} Street from the CSX Intermodal Facility Entrance to north of E. Columbus Drive in Hillsborough County.

Project Update Fact Sheet

Project Title: US 41 From Kracker Ave to South of SR 676/Causeway Blvd
ETDM Number: 5180
FM Number: 430056-1

The FDOT is conducting a Project Development and Environment (PD&E) Study for the widening of US 41 in Hillsborough County, Florida. The project limits at the northern termini were recently modified during the PD&E Study to connect to the adjoining US 41 @ CSX grade separation project to the north (FM #440749-1). While the project’s limits remain the same (US 41 From Kracker Ave to South of SR 676/Causeway Blvd) the project length has reduced by 0.078 miles (Begin MP 15.784 (no change) end MP 22.617 (new)).

Also, this project was previously approved as a State Environmental Impact Report (SEIR) and is now being processed as a Type II Categorical Exclusion (CE) in order to be eligible for federal funding. The FDOT Office of Environmental Management is now the lead agency.

Current schedule of the project

The PD&E phase will begin in February 2022. Design will begin in April 2022 and Phase II will be completed in December 2023.

If you have any questions concerning this project, please contact:
Craig Fox, PE
Project Manager

Florida MPO Advisory Council Legislative Summary

From: Reichert, Mark <Mark.Reichert@dot.state.fl.us>
Sent: Monday, December 13, 2021 9:31 AM
Subject: Legislative Summary

Good morning, everyone. Attached is the latest Legislative Summary Report. Thirteen bills were added to the list this past week. None seem particularly relevant to our program, but HB 871 does reinstate a vehicle inspection program in about a dozen counties.

On Thursday, the Governor announced his “Freedom First Budget” proposal. Below are the highlights for FDOT.

The budget includes $10.4 billion for the Florida Department of Transportation which includes $9.27 billion for the State Transportation Work Program.

Within the budget the Work Program includes:
- $3.6 billion for highway construction to include 138 new lane miles.
- $1.2 billion in resurfacing to include 2,637 lane miles.
- $117.3 million in seaport infrastructure improvements.
- $297.2 million for aviation improvements.
- $185.5 million in scheduled repairs for 52 bridges and replacement of 17 bridges.
- $597.7 million investment in rail and transit projects.
- $154.9 million for safety initiatives.

To read the budget highlights click HERE.
To read the Freedom First Budget FAQs, click HERE.

The Honorable Daniel Webster  
U.S. House of Representatives  
2184 Rayburn House Office Building  
Washington, DC 20515

Dear Congressman Webster:

Thank you for your service to our state in the United States Congress and as a senior member of the important House Transportation and Infrastructure Committee.

We want to update you on some important actions that the Sun Coast Transportation Planning Alliance (SCTPA) and the Tampa Bay Transportation Management Area (TMA) Leadership Group took earlier this month. SCTPA, formerly known as the MPO Chairs Coordinating Committee, supports local, regional, and statewide transportation projects in an eight-county area that includes Hernando. The Committee works to improve access to transportation opportunities throughout the growing West Central Florida region. The SCTPA coordinates sound, forward-thinking transit and transportation options that help promote and sustain this growth.

At a joint meeting of the SCTPA and TMA in Tampa on December 10, the group unanimously adopted two important resolutions. The first endorsed a 41-mile regional bus rapid transit project being developed by the Tampa Bay Area Regional Transit Authority (TBARTA). The project, known as Regional Rapid Transit, or RRT, would traverse I-275 to connect Wesley Chapel, the University of South Florida area, Downtown Tampa, Westshore, Pinellas County’s Gateway area, and Downtown St. Petersburg with an all-day modern mobility platform that will provide quick, safe, reliable, frequent, and regional rapid service. This is the project I briefed you about prior to the COVID pandemic.

This was an important action by the local elected officials who participated in this transportation summit as it marked the first time these leaders endorsed a full-scale regional transportation project in an area where none exists. It also comes at an opportune time as Congress and the Administration embark on a major investment in our nation’s transportation infrastructure. The Florida Department of Transportation is a partner on this project and is already making investments in the Regional Rapid Transit project by incorporating important components of the project into its work to upgrade the Howard Frankland Bridge, the Westshore interchange, and the I-275/I-4 bottleneck.
The Honorable Daniel Webster

The second decision by the working group was to unanimously direct TBARTA to take the lead on a feasibility study and financial analysis of two CSX rail corridors (known as the Brooksville and Clearwater subdivisions) that could one day be developed into fixed guideway transportation options to connect large segments of West Central Florida, including Hernando County. This aligns with a major new focus by FDOT to study passenger rail options for Florida, including Intercity, Regional and Urban Rail options, and linkage to the work already underway to bring Brightline service to the West Coast region.

We will continue to keep you apprised of developments in both of these areas and would appreciate any thoughts and advice you can provide us as you and your colleagues on the Committee continue to examine ways in which transportation-challenged areas of our nation, such as the West Coast of Florida, can work in partnership with the U.S. and Florida Departments of Transportation to develop, build, and implement projects to serve our growing population and visitors.

Thank you again for your leadership as the West Coast of Florida’s representatives on this important Congressional Committee.

Sincerely,

David Green  
Executive Director
