XI. STATUS REPORTS

A. Sunshine Line Update (Scott Clark, Sunshine Line) (Timestamp 0:34:50)

- Thanked the Board and TPO Staff for being engaged and vocal. Noted that this is not the norm around the state. Also thanked the Sunshine Staff for all they do and the various hats they wear.
- Supporting the Tampa Civic Association in the water safety program.
- Starting New Life Village trips; grandparents who are fostering their grandchildren. Provide field trips.
- Hillsborough County Sheriff’s Office homeless outreach support.
- Supporting Healthcare Services for the healthy living program.
- March: On-time performance is down to 87.3% which is below the standard of 90%. Trips per revenue hour are 1.3 with a standard of 2.0. Calls were handled with an answer rate of 95%; there were 8 compliments and 3 complaints in March. Accidents 1.1 with a standard of 1.2. The cost per trip is down 18% from February.
- Driver Shortage: Have 17 vacancies, 7 operators who are off the road long-term, and an average of about 26 drivers on the road daily out of 56. Overtime last pay period was 350 hours.
- Mitigating driver shortage impacts through communication and working with the clients. Looking at routes and trying to maximize. Unable to service Saturdays to focus on weekday transit. Working on an innovation grant or driver numbers back up. Will be able to support the nutrition program but not able to support Adult Day Care when it opens up. Drivers are leaving for other options.
- 2 new drivers coming online with 3 pending.
- Legislation approved the funding for the innovation grants. Working on a regional strategy being led by PSTA that has a robust staff who can manage the project. Three counties working together are Hillsborough, Pasco, and Pinellas. Also working on another application for Hillsborough as a backup.
- Getting ready to support Aging Services as they re-open.
- Working on contract with taxi services.
- HART Plus service change; 130 out of 132 of the Sunshine Line customers identified have transitioned with no issues and no service loss.

Discussion:

It was asked if there has been a consideration for a higher wage for drivers and whether there has been movement. It is being worked on, but it is not resolved at this time. It was also asked if the overtime was being paid and whether or not that could be rolled into higher wages. It is being
looked at. Clarification was asked in the support for Aging Services and Adult Day Care. Working on bringing the staffing levels up to be able to serve that community. It is based on restrictions for the service, clients cannot be on board the bus for more than two hours per day with no exceptions. Kristina Melling noted that she would be willing to look into a standard that could be added for the Adult Day Care two-hour restriction. It was asked if Urgent Medical care information can be repeated. Sunshine Line is pre-scheduled. When people get sick, they need to get to Urgent Care immediately. There are no resources for that. The client ends up going to an ER via ambulance. The Tri-County project is working on handling the Urgent Care need. This service would be contracted. If the grant is awarded, the anticipated implementation would be in October. The grant could be up to $1.5 million. The contract would be for nights, weekends, cross-county, and Urgent Care. It was asked if there is a short-term plan for the driver shortage. Yes, through recruitment, overtime, service strategies, etc.

Board & Committee Agenda Item

**Agenda Item**
Public Participation Plan Amendments (2022)

**Presenter**
Davida Franklin, TPO staff

**Summary**
Engaging the public is critical to the Transportation Planning Organization’s (TPO) success. Working with the community ensures TPO plans, and products better reflect the public’s values and preferences. The Public Participation Plan (PPP) helps balance the professional and technical expertise brought to projects with the community’s input and helps the TPO gain the broad support needed to ensure that transportation plans and programs are implemented.

At least once every two years, the TPO reviews its public participation and produces a Measure of Effectives (MOE) Report. The MOE was presented to committees last month and recommendations were made to improve the PPP:

- Increase digital and social media tools to increase engagement
- Institutionalize proactive outreach for TIP amendments
- Provide clarity about the TPO’s roles and responsibilities in the planning process
- Use focus groups more often and consider target demographics
- Build culture awareness

Those changes will be highlighted in today’s presentation and help set the stage for engaging the public in the update of the Long Range Transportation Plan (LRTP) to the year 2050.

Board & Committee Agenda Item

**Agenda Item:**
TPO/LCB Annual Bylaws Review

**Presenter:**
Joshua Barber, TPO Staff

**Summary:**
The Commission for the Transportation Disadvantaged requires LCB’s to annually review and (re)adopt their bylaws. The LCB Bylaws establishes the formal procedures for the TDCB activities including membership, staff, board duties, and subcommittees, communication with other organizations. The Bylaws of all the TPO Committees are incorporated into the TPO Bylaws.

The Hillsborough LCB in October 2020 amended the bylaws to reduce the requirements for a quorum from a majority of the seated Board members to five (5) members of the Board, because of the COVID-19 Pandemic. These changes were approved at the January 2021 TPO Board Meeting. As Local and State Declarations of Emergency are lifted, it is the expectation of the Florida Attorney General that members of the TPO Board and its Committees begin to attend meetings, which take place under the Sunshine Law, in-person, unless there is a medical emergency or other circumstances which prevent members from attending in-person.

Given this expectation, the LCB can either request the TPO amend the bylaws back to a majority of the seated LCB Members or can maintain the current five (5) member quorum. Maintaining the current five (5) member quorum will not excuse anyone from attendance of LCB meetings in-person in accordance with Florida Attorney General expectations.

**Recommended Action:**
Review and (re)approve the LCB Bylaws, amended if necessary.

HART staff will present a short briefing on the FY 2023–FY 2032 Transit Development Plan (TDP) and the Fiscal Year 2023 Proposed Budget.

The TDP is an annual document detailing the direction of HART, as well as its funded and unfunded operating and capital needs, over the next ten years.

The FY 2023–FY 2032 TDP is especially significant in that HART has engaged in a Comprehensive Operations Analysis (COA) of the transit system. A COA typically includes a detailed review of ridership and the cost of delivering transit service on each route. COAs often lead to recommendations for improving efficiency, reducing agency expenditures, and/or maximizing benefits to the public. Additionally, this TDP is considered a major update which is required every five years by State Law.

5/11/2022

TPO Board Members,

Good morning, I apologize however due to an unforeseen event, I am unable to attend today’s meeting. Please read this letter into the record.

A quorum was met in person.

A. Vote of Consent for Remote Member Participation.

Voice vote, motion passes with one “Nay” vote.

III. APPROVAL OF MINUTES (Timestamp 1:33:16) – April 13, 2022

Chair Cohen sought a motion to approve the April 13, 2022 minutes. Councilman Citro so moved, seconded by Commissioner Smith. Voice vote: motion carries unanimously.

IV. PUBLIC COMMENT (Timestamp 1:33:34) (30 minutes total, with up to 3 minutes per speaker)

Additional comments made via Social Media and Email can be found at the end of these minutes.

• Rick Fernandez – Out of Tampa Heights and is a Tampa Heights Civic Association member and Vice-Chair of the TPO CAC. Written comments have been submitted via email and additional verbal comments were made at the TPO Policy Meeting on May 11, 2022. It was asked that
the Public Participation Plan Effectiveness Report document be removed from the Consent Agenda and returned to the author(s) for correction/update where the DTI project is concerned. The CAC approved the report with the caveat that “The report needs to acknowledge the challenges over the last two years in communicating with the public about the design of the Downtown Interchange”. The request was made on May 4, 2022, and there has been no effort to supplement the report. It is not worthy of Consent Agenda treatment. The CAC has begun a review of the TIP draft. The three-lane movement making up the DTI Quick Fix are now on Table 1. The CAC has recommended that two of these lane movements be removed due to their impact on Tampa Heights. The third lane movement was the subject of a motion to strike in 2021 made by a TPO Board member. Suggests that that motion should be revisited in 2022. It was noted that if those that ran on the promise to fight the expansion of the interstate in the urban core of Tampa honor their commitments, this project can be stopped this year. There is also a matter of dedicated bus lanes on Florida Avenue and Tampa Street through a lane repurposing request from HART. Asks that this step be taken and that the dedicated lanes be included in the project descriptions for this year’s TIP in Table 1. They are currently not there. Referencing FPN #’s 511-7 & 511-8.

- Anthony Mangieri – A life-long resident of Hillsborough County, particularly the northwest area of the county. Explosive growth has put challenges on our local infrastructure. In the northwest county, Van Dyke Road between Dale Mabry and the Sun Coast Parkway, there has been explosive growth and land-use changes that have driven up traffic volumes to the point of needing additional lanes. These are needed for life safety for the hospital, the local fire station, and for the main hurricane evacuation route. There is a project on the books that was explored in 2014 with some funding and land acquisition for this expansion. That project has been continually delayed out to 2027 when the initial completion was scheduled for 2024. This is creating a life safety issue and this corridor has a high crash rate according to Hillsborough County Sherriff’s records. Are looking for some temporary, reasonable measures until the project can be moved forward. Is asking for further review of the timing of this project and some temporary engineering fixes for the short term.

- Lena Young Green – is continuing to request that Tampa Heights and the surrounding neighborhood be considered as further transportation decisions are being made. The community is back making the requests for consideration going into the TIP hearing in June. Ask that the impact of the extending roads and interstate lanes in our neighborhoods. It impacts us environmentally, socially, and in our health. Asked that Rick Fernandez’s presentation be supported.

- Mauricio Rosas – Emphasized what was said in the TPO Policy meeting earlier about land use. The county needs land use correction. If the current path is continued there will not be reasonable mass transit for the outer county. Segments D and E of the Green Artery have been funded but there is no record for construction dates. These projects are shovel-ready. Back to I-275; the underpasses at Osborne, Chelsea, and Floribraska are not uniform with MLK and Hillsborough Avenue. According to FDOT staff, the decision was arbitrary. All of those underpasses are constructed exactly alike. All of the underpasses in Ybor City and Westshore look the same. When
you go north, they don’t look alike anymore. There is no placemaking, there is nothing identifying the area as East Tampa or Seminole Heights.

V. COMMISSION REPORTS & ADVANCE COMMENTS (Bill Roberts, CAC Chair; Davida Franklin, TPO Staff; Beth Alden, TPO Executive Director) (Timestamp 1:44:38)

   • Approved
     o FY 23 & FY 24 UPWP Approval
     o Public Participation Plan: Measures of Effectiveness Report (2020-2021) - Members commented that they liked that outreach is being tracked and evaluated and agreed that the engagement on the Non-Discrimination Plan was very effective.
The TAC heard a motion to approve the Apportionment Plan as recommended but the motion failed to pass, therefore no action was taken. Comments included:

- HCAA commented that you cannot compare Hillsborough to other MPOs because most airports are owned by the County. In examples where there is an independent authority, they have voting seats. For example, Orlando International Airport has a voting seat on the MetroPlan Board. HCAA representatives speak for the Board, not the CEO. HCAA has a unique perspective as a transportation operator and should retain a voting seat. The Port Authority agreed with HCAA and finds the proposed plan disturbing.
- Planning Commission, Hillsborough County, and City of Tampa representatives abstained from voting since their Boards have not taken a position.

- Status reports heard – Transportation Improvement Program (TIP) Priorities Update: Preliminary Draft; Live Grow Thrive Tampa Comprehensive Plan Update; HCAA is updating its Master Plan

E. LRC – March 23, 2022 (Councilman Citro, City of Tampa and Davida Franklin, TPO Staff)

- Took action on
  - TPO Membership Apportionment Plan Draft – the LRC did not approve the staff recommendation, instead moved that the TPO Apportionment be left Status Quo.
    - Councilman Citro (noted LRC discussion on the Apportionment Plan) – noted that the LRC had a lengthy discussion about the make-up of the TPO Board. It was the decision, not unanimous, to keep it status quo. There was the consensus that two members need to remain on the Board, the Port of Tampa and the Airport Authority. These are two major entities that deal with transportation in the county. Also felt that because of major highways intersecting in the City of the Tampa and the number of fatalities in the City of Tampa and the number of bicycle and pedestrian crashes in the City of Tampa that there should be another representative from the City of Tampa.
  - Public Participation Plan Measures of Effectiveness Report was approved.
  - Comments on ETDM Project #14486 (US 301 from Moccasin Wallow Road to SR 674 – The LRC moved to submit the staff comments, comment from a member of the public on behalf of the Sundance Community, and additional comments made by the committee on the topics of rural context, wildlife crossings, safety, and a request to return to the committee at the design phase.

F. BPAC – April 27, 2022 (Davida Franklin, TPO Staff)

- Did not have a quorum and were unable to take action but provided some comments.

- Action Items
  - TPO Apportionment Plan Draft – Members had several questions on the proposal:
    - Is there an issue with the current distribution?
    - Would this put the City of Tampa at a disadvantage? (It was pointed out that County Commission Districts also include cities.)
- Should the independent agencies be removed? Some members expressed that they provided value and expertise to the conversation.
- Several agency staff commented that they would abstain since their agencies had not yet taken a position.

- Heard status reports on the following: the City of Tampa MOVES and Vision Zero Action Plan, Introduction to New TPO Studies, Live Grow Thrive Tampa Comprehensive Plan Update

G. TPO Policy Committee – April 13, 2022 Meeting (Beth Alden, TPO Executive Director)

- Reviewed two items on the Consent Agenda – Smart Cities Mobility Plan Update and the Public Participation Plan: Measures of Effectiveness Report. The Policy Committee supported approving these items.
- Reviewed a preliminary draft of the TIP Priority List which will be at the public hearing in June. There were some comments that the staff will be addressing.

H. Public Comments Received Through Email & Social Media (Davida Franklin, TPO Staff).

Detailed Email and Social Media are located at the end of the minutes.

VI. PUBLIC COMMENT FEEDBACK (Secretary David Gwynn) and Discussion with the TPO Board (Timestamp 1:56:20) – Secretary Gwynn noted that FDOT will contact the contractors to make sure the dust mitigation is being handled appropriately. It was also noted that the underpasses are still in process and FDOT is continuing to work with the community and the city to make them as pedestrian-friendly and welcoming as possible. Not all of them will have the same treatment. Are working with the City of Tampa for the artwork. The dedicated transit lanes on Florida and Tampa; there is a BRT plan that will, hopefully, operate from downtown to USF with transit-only lanes in that corridor. The Tampa Heights Mobility Project has a lot of elements in it including fixing drainage in order to have bus-only lanes. It started in Pinellas County. FDOT wants to set these roads up for BRT or a premium transit option. Many people support transit but, many also oppose transit-only lanes when there is only one bus an hour or 30 minutes. PSTA has committed to running premium transit. FDOT is taking the stance that they want these projects to succeed. Noted that the way they fail is by converting the lanes too early when the premium service is not there. The roads are being set up to be ready for conversion. However, a premium transit service needs to be there.

Discussion:

The dust from the DTI construction public comment during the Policy meeting was brought up to Secretary Gwynn. The person who spoke got sick from it. Secretary Gwynn found out about that this morning. FDOT will be following up with the contractor as to why that is happening as the condition described is not supposed to. It was asked if there is screening in addition to water. The contractor is given a measure to meet. Will look at this further and address it.

The sloped walls under the underpasses open up the sidewalk but do not open up the perception of safety. Opening them all the way up is preferred and that was indicated by Commissioner Overman. It seems as though the smaller streets are not receiving the same treatments. It is important when
we receive public input to hear it. FDOT has its own communications plan. These may be different. It’s important to partner and work together. On the major arterials, MLK and Hillsborough, the underpass sidewalks are going to be 30 feet wide whereas the sidewalks on the smaller streets will be 15 feet wide with enhanced lighting. It was asked that the sidewalks and flooding be addressed on Florida and Tampa Street; what would be the timeline and what would be the penalties if the dates are not met. The City of Tampa has been doing this work and it does not appear to have progressed in six months. Having that experience on these streets would be painful. The contractors have to pay when they go over time and FDOT may look into providing incentives for early completion. There is really no drainage in these areas now. FDOT partners with the city. The overall construction for the Heights Grant is about three years. The most points were given for the grant due to the resiliency measures to handle the stormwater. Heavy construction will likely be two years and expect it to begin in about a year. This project is fully funded.

A lot of concerns have been expressed at the meetings. Some of the vibrations that residents are experiencing and were concerned about were actually a combination of the DTI but also the City of Tampa Pipes Program going on at the same time in the same area.

It was noted that HART is working closely with FDOT to go through the process of dedicated bus lanes.

- Review of background and requirements.
- Went over considerations – heard different concerns from the TPO Policy Committee and others.

- Review of three Scenarios.
  - Showed breakdown of proposed votes on the TPO Board and summary table.
- Went over proposed TPO Board votes versus the 2020 census data.
- Summarized committee feedback from the TPO committees.

**Presentation:** Hillsborough TPO Membership Apportionment Plan  
**Draft:** TPO Apportionment Plan Draft

**Recommendation:** Approve the TPO Apportionment Plan.

**Discussion:**

It was pointed out that 78% of MPO/TPOs similar to Hillsborough County have all elected officials. It was noted that the CAC, representing citizens, has recommended the plan. It was asked that everyone give extra thought to the Sunshine Laws and the inability to discuss topics that come to a vote on the TPO Board with agency experts. Non-voting members do not lose their ability to advise and influence the Board. The fact that Hillsborough County is an outlier in the state XXX. It was brought up that there is often a disconnect between land-use planning and transportation planning without having the entire BOCC on the TPO Board. In many jurisdictions, the municipality operates the Transit Authority. HART needs to be part of the planning and there is some hesitation about not having them on the Board. MPO/TPOs were set up by the federal government because communities were impacted by having major interstates going through the middle of them. The TPO gives the citizens a voice. The comparison was brought up with other regions in the state. It
was also noted that, currently, four out of five of the BOCC members on the TPO Board live in the City of Tampa. It was acknowledged that the citizens have the right to vote the members out if they are not representing them. The agencies were put on the TPO Board for their expertise. FDOT has a strong advisory role. The instance in Hillsborough County where the agencies are not managed by the county is rare.

It was noted in the statute that the TPO may include as part of its voting members, a member of statutory authority, an authorized planning board, an official of an agency that operates or administers a major mode of transportation, or an official of Space Florida. The other regions that have Port Authorities on their boards, those agencies are independent agencies in those counties. The Port Authority and Aviation Authority were created in 1945 by the legislature. The impact of these authorities represents the entire county. Port Tampa is the largest port in the State of Florida. They are very much responsible for transportation in the county. Their presence on the board ensures their planning and infrastructure improvements don’t disparately impact the rest of the county and it is mutually beneficial. The I-4 connector is a prime example. There is a belief that there is too much emphasis on the representatives who are not elected officials. They are appointed by elected officials on the agency boards. If the members of this board do not act in a way that pleases their boards, they are held accountable. Excluding this representation removes the voice of major stakeholders in the county. It was noted that the only port represented on an MPO/TPO in the comparison list, Miami-Dade may be the only one close. Tampa Airport is the second largest in the country. This makes Hillsborough County an outlier by removing these transportation stakeholders.

It was noted that Hillsborough County is very different from the other MPO/TPOs being compared; Port Tampa Bay is expanding both in shipping and cruises; the Tampa Airport is a major US airport. Between the hours of 7A and 7P, the population of the City of Tampa doubles and are under-represented on the TPO Board.

Agency representatives are given direction from their Board of Directors on how to represent the agency and how to vote. Those Boards are made up of elected officials from the county and the city. Where the airport is concerned, 20 million travelers are represented. These travelers will not come back if they don’t have good transportation experiences. There are also 17,000 employees being represented who have to get to work and back home. The sentiment is that the airport and the port are “great economic engines, you’re off the Board, we don’t want your vote.” The airport built an automated people mover system to take cars off a congested roadway.

The agencies are supported by tax dollars. It is important that representation be on the board to keep continuity for long-range planning as elected officials won’t be here. It was noted that in the land of politics, it is nice to have non-political voices once and add important perspectives. There are other boards in the county that makes important decisions about taxpayer dollars that are not made up of all elected officials such as Transportation Development and Tourism Development. It was brought up that the statute shows that it is intended to have non-elected officials on the MPO/TPO. All of the cities and counties around Florida are unique so having the Hillsborough TPO be different is not a bad thing; it reflects the county. The TPO Board is able to expand to 25 members and that would be a way to add elected officials to the TPO Board. Removing citizen voices would be unwise and does not meet the spirit of the statute.
Mr. Slater noted that he had not received direction from his board on this topic. However, he expressed that THEA reinvests 100% of its revenue back into the community, not just in roadways but in greenways, autonomous vehicle testing, and other technology testing. The objective should be to work together in a cooperative manner and an integrated manner.

It was noted that HART serves the entire county, and they are going through a transitional phase and looking at how best to utilize existing resources and attract new resources. The HART Board has engagement by elected officials and the monthly meetings are open to the public as well.

Commissioner Cohen noted that he received a letter from the Chair of the Hillsborough County Aviation Authority. It was made available to the Board and is included at the end of the minutes. It was stated that in order for there to be a change in the apportionment, there needs to be an agreement between the four municipalities, FDOT, and the Governor. Based on the discussion, the current plan does not have the support to pass and would likely not be supported by the Governor. Reservations were expressed during the Policy meeting about removing the Port Authority and the Aviation Authority. Elected officials that sit on agency boards have one vote on this board and do not have the ability to divide their vote. It was brought up that if it is the intent that more elected officials be added, that would be a compromised framework. That could be circulated to the local governments to see if there is support.

Commissioner Smith motioned to have staff take another look at the TPO Apportionment Plan and reconsider a plan that might adjust the representation of local governments based on representation while retaining the agencies; seconded by Councilman Maniscalco.

Discussion:

It was noted that the agencies are an integral part of the transportation system. The input is very valuable. It was noted that the increase in BOCC representation is based on population and not the variable population of a specific period of time or going beyond population trends versus importance.

Voice vote, motion passes unanimously.

In a post on the Transit Now Tampa Bay Facebook page about technical issues with the Selmon Expressway beautification project

Christopher Vela:  
It is important to note that after I did a half-hour report on the historic travesties of this project ALONE (no I275 and I4) the Hillsborough TPO still rolled with THEA over their expansion project. We deserve it. Until we get we get 100% new people in leadership.

In a post on the Transit Now Tampa Bay Facebook page about increasing pedestrian deaths

Christopher Vela:  
Also in 2021 out Hillsborough TPO did nothing to stop TBNEXT which is so dangerous that it would be illegal for actual pedestrians to use. But in all seriousness from that actual truth (law) local roads will be quite dangerous by the interstate’s exits where the TPO’s Vision Zero Hillsborough hopes that paint saves lives.  
Jesus...the world we live in.  
“California, Florida and Texas led the nation in the number of pedestrian traffic fatalities in the first half of last year, accounting for 1,289, or 37%, of all pedestrian deaths.”

In a post on the Transit Now Tampa Bay Facebook page about the I-75 PD&E study

Christopher Vela:  
In case you are wondering there are express lanes being planned on I75 in Hillsborough County. Unlike how TBX started with the Hillsborough TPO not compelled to care about some of us urbanites, these more rural communities already get a running start. It is all bad, but if I were FDOT, I could tell the TPO to shut it because they neglected unconditional promises of rail, sound walls, or other improvements in the inner city and more urban parts of the
Committee Reports

Meeting of the Intelligent Transportation System (ITS) Committee on April 14

The ITS held its election of officers. Margaret Kubilins was reaffirmed as the Chair, Brian Gentry as the Vice-Chair and Jeff Sims as the officer-at-large.

The ITS Committee approved the following action item:

- **Smart Cities Mobility Plan**
  TPO staff presented the vision statement and the purpose of the Smart Cities Mobility Plan. There were primarily four tasks – Existing project inventory and the production of a factsheet booklet, comparison of Tampa Bay’s current deployments against the inventory and across peer metros, new ranking methodology for TIP prioritization and community outreach. Committee members discussed about the challenges including maintenance and funding investment. The committee approved the Smart Cities Mobility Plan and recommended to the TPO Board.

The ITS Committee heard status reports on the following:

- **Regional ITS Architecture**
  FDOT Central Office and the consultant presented a review of the FDOT Statewide and Regional ITS Architecture website which is currently being updated. The website helps the stakeholders and agencies to access the inventory of existing and planned systems across the region, the project information flows and the functional requirements. The website will be available to the public once the update is complete.

- **Low-Cost Air Quality Monitoring Pilot Study**
  TPO staff presented an update on the low-cost air quality monitoring pilot study that is being conducted in partnership with the USF College of Public Health, Hillsborough County EPC and FHWA. The areas identified as part of the pilot study were Sulphur Springs, VM Ybor, South Nebraska. Committee members raised question about moving to a larger project. The long-term goal was to develop methods to establish a larger community monitoring network and for them to monitor the quality of the air around them.

- **FY 23 & FY 24 UPWP Preliminary Draft**

They’re also gearing up for the opening of three new Aging Services sites. Otherwise, they are operating at less than 50% capacity for drivers and are having significant challenges recruiting and retaining vehicle operators as a result of non-competitive wages. On-time performance is at 87.3% last month, the lowest it’s been in many years. Saturday service is being phased out currently as a result of the driver shortage, and trips are being prioritized into essential and non-essential trips.

**Meeting of the Citizens Advisory Committee (CAC) of May 4**

The CAC approved action items:

- **FY 23 & FY 24 UPWP**
- **TPO Apportionment Plan Draft**, as recommended by the Policy Committee
- **Public Participation Plan: Measures of Effectiveness Report (2020-2021)** – with the caveat that the report needs to acknowledge the challenges over the last 2 years in communicating with the public about the design of the Downtown Interchange.

Options for Expanding Amtrak Service in Florida

Presentation to Florida MPOAC - F&RC Passenger Rail Workshop

April 27, 2022
What Is Amtrak?

• Before Amtrak, railroads were obliged to offer passenger service—even if their primary business was freight. Over time, travel habits changed; by 1970, many railroads wanted to be relieved of that obligation.

• In part at the railroads’ request, Congress created Amtrak to provide intercity passenger service—enabling those railroads to focus on freight operations. In exchange, the railroads were required to allow Amtrak to use their tracks and facilities at incremental cost.

• Amtrak has a public purpose. Our mission, defined by statute, is “to provide efficient and effective intercity passenger rail mobility consisting of high-quality service that is trip-time competitive with other intercity travel options...” In practice, that means:
  
  • **Providing retail commercial transportation** across three service lines (State-Supported, Long-Distance, and Northeast Corridor)

  • **Operating and maintaining critical rail infrastructure** used by Amtrak and other railroads (e.g., the Northeast Corridor and major stations)

  • **Operating or funding adjacent enterprises**, including contract commuter services (e.g., Metrolink), a bus network that connects to Amtrak routes (Thruway), charter trains, etc.

---

**Amtrak Quick Facts**

- More than 40 routes
- Approx. 21,400 route-miles
- Approx. 300 weekday trains (pre-pandemic)
- Service to 500+ stations in 46 states, plus DC & Canada
- Approx. 17,000 employees
- More than 32 million riders per year (pre-pandemic)
- Service partnerships with seventeen states sponsoring twenty-eight corridor routes
Amtrak in Florida Today

• Amtrak operates three once-daily Long-Distance routes that serve Florida:
  • **The Silver Star** (Miami to NYC via Tampa, Orlando, and CSX’s “S-Line” (goes through Columbia, SC))
  • **The Silver Meteor** (Miami to NYC via Orlando and CSX’s “A-Line” (goes through Savannah and Charleston))
  • **The Auto Train** (Sanford to Lorton, VA (DC area))

• A fourth Long-Distance route, the *Sunset Limited*, previously connected Orlando with Los Angeles; service east of New Orleans was suspended following Hurricane Katrina in 2005.

• Amtrak does not currently operate any State-Supported corridor routes in Florida.

Amtrak Connects US

- **Amtrak Connects US (ACUS)** is Amtrak’s vision for growing rail service in currently unserved and under-served communities across America, in close partnership with states and other stakeholders.

- The proposal calls for expanding service in dozens of high-potential “corridors”: relatively densely-populated clusters of communities that are less than 500 miles from end to end.

- Rail is trip time-competitive with other modes at these distances, and the corridors’ high population bases mean that well-planned, well-resourced routes could recoup a large share of their operating costs.

- Service expansions would be operated as elements of Amtrak’s State-Supported Service, meaning Amtrak would typically provide the equipment and crews, and would operate trains in accordance with the sponsoring states’ wishes.

- Routes’ long-term operating losses (if any) would largely be covered by the relevant states. However, Amtrak is seeking significant new federal support for the up-front capital costs and early-year operating costs associated with service expansions.

Amtrak Connects US will transform passenger rail as we know it. Our plan will:

- **Bring service to 160+ new communities**

- **Create 10,000 permanent new jobs**, and temporarily support thousands more (e.g., during construction)

- **Provide $150 billion in new economic benefits** by 2035

- **Greatly reduce greenhouse gas emissions** relative to existing travel options
Why Develop Corridor Service?

Worsening Congestion

Map shows projected peak-period highway congestion in 2045. Red “highly congested” segments indicate “stop-and-go conditions with volume/service flow ratios greater than 0.95,” as estimated using Highway Performance Monitoring System field manual procedures.

Population Shifts

The U.S. population is increasingly concentrated in megaregions—densely-populated city-clusters that can be efficiently served by intercity passenger rail. Yet Amtrak’s network looks much the same as it did in 1971. As a result, there is a mismatch between large, growing populations and sparse, infrequent service across much of the South (including Florida) and the West.
Amtrak's Vision for Corridor Development

Map is for illustrative purposes only, and depicts one of many possible scenarios for what service could look like in 2035. Amtrak remains interested in working with any state that wishes to expand service.

Amtrak connects US: Possible Florida Routes

- If supported by FRA and state of Florida, ACUS proposal would provide **new, dedicated corridor rail service** linking **Florida metro areas** along three routes:

  - **Tampa – Orlando – Jacksonville**
    - 2+ RT/day Jacksonville – Tampa
    - 4+ RT/day Sanford – Orl.—Tampa

  - **Tampa – Miami**
    - 3+ RT/day

  - **Sanford – Orlando – Miami**
    - 2+ round trips/day

- These new corridor trains would be complemented by **continued operation of all current Long-Distance trains**.

- Amtrak is committed to help state partners and regional authorities to realize their visions for **intercity and commuter/regional passenger rail**.

- Thruway Bus Connection

Proposed Amtrak Trains
- Jacksonville - Tampa
- Sanford - Miami
- Tampa - Miami

- Proposed Train Station
- Existing Thruway Bus Stop

Population
- < 15,000
- < 500,000
Possible New Long-Distance Configurations – Options TBD

Long-Distance service in Florida could be enhanced and improved through a reconfiguration of existing routes, for example:

- The Virginia-Florida *Auto Train* remains unchanged in all scenarios.

**Option 1 (depicted on map):**

- The route of the NY-Tampa-Miami *Silver Star* remains unchanged.
- The NY-Miami *Silver Meteor* reroutes to the Florida East Coast Railway (parallel to I-95), returning to its present route in West Palm Beach. This route shortens NY-Miami trip times by over two hours.

**Option 2 (not depicted):**

- Split both the NY-Florida *Silver Meteor* and *Silver Star* trains in Jacksonville, separate Jax-Orlando-Tampa and Jax-Daytona-Miami trains continue to/from Central/South Florida terminals.
